Final Scientific Program & Faculty List at ISET.org

An Exceptional CME, SAMs* and IAC Credit Opportunity
*Pending approval by the ABR & ABS for self assessment credits towards the Maintenance of Certification program.

The 28th International Symposium on Endovascular Therapy

February 6-10, 2016
The Diplomat Hotel, Hollywood, FL

Register at ISET.org

From the Fundamentals to the Frontiers of Endovascular Therapy
This winter in South Florida, join the 28th Annual International Symposium on Endovascular Therapy (ISET) for another scientific program so impactful it promises to change the way endovascular specialists of all disciplines practice medicine in the year ahead, and beyond. From the fundamentals to the frontiers, ISET will take deep-dives and controversial twists into PAD, venous, aortic and other essential topics such as rapidly emerging concerns over occupational safety and radiation protection. Focused symposia and compelling panels will compliment ISET’s legendary live cases. Broadcast in real-time from advanced, first-in-world angiosuites and cath labs, they are the tour de force that complete ISET’s ideal learning environment.

Make ISET an integral part of your continuing education calendar and fulfill all of your professional needs in one spectacular location.

Sincerely,
ISET COURSE DIRECTORS

COURSE DIRECTORS

Barry Katzen, M.D. James Benenati, M.D. Alex Powell, M.D. Shaun Samuels, M.D. Ramon Quesada, M.D.

Constantino Peña, M.D. Adam Geronemus, M.D. Ripal Gandhi, M.D. Jane Kiah, R.N., MS

GUEST COURSE DIRECTORS

Abilio A. Coello, M.D., FACS
Miami, FL

William A. Gray, M.D.
New York, NY

Richard Neville, M.D., FACS
Washington, D.C.

Russel H. Samson, M.D., FACS, RVT
Sarasota, FL
TOPICS INCLUDE:

**AORTIC**
- Dissection Management
- Emergent Treatment of Dissections
- Endografts
- Endoleaks
- EVAR, TEVAR and TAVR
- Structural Heart

**CHRONIC TOTAL OCCLUSIONS**
- CTO from Head to Toe

**EMERGING & ESSENTIAL**
- Access (Head to Toe)
- Drug-Elution
- Embolization (Pelvic, Prostatic Artery, Pulmonary)
- Out-Patient Centers for Intervention
- Radiation Protection/Safety/Occupational
- Renal and Visceral Interventions
- Robotics Therapies
- Stroke
- Tissue Engineering, Cell Therapy and Future Technologies
- Women’s Health

**PAD**
- Acute Limb Ischemia
- Carotid and Brachiocephalic Interventions
- Controversies in Claudication
- Critical Limb Ischemia (CLI)
- Dialysis Access
- PAD (Iliac and Mesenteric)
- Pedal and Radial Access
- Preventing and Treating Restenosis

**VENOUS**
- DVT, Pulmonary Embolism, IVC Filters
- IVC Thrombus and PE Management
- Vascular Emergencies
- Vascular Compression Syndromes
- Venous Interventions

*Live cases are determined by patient needs at the time of activity.*
