PRE-CONFERENCE COURSES

Thursday, April 13, 2023 | 8:00 am – 5:30 pm (Separate Registration Required)

ASAM

FUNDAMENTALS™

of Addiction Medicine | Workshop

Overview

The ASAM Fundamentals of Addiction Medicine Course is an innovative, case-based, interactive workshop for providers who are new to seeing patients at risk or treating patients with addiction. You will learn the basics of addiction medicine, which covers how to screen, diagnose, treat, and/or refer patients with addiction, many of whom have co-occurring medical and psychiatric comorbidities.

Audience

Physicians, physician assistants, nurse practitioners, nurses, and behavioral health specialists who are new to treating patients with addiction and for individuals who have had little or no addiction training.

Topics

- An Introduction to Addictive Disorders
- Clinical Manifestations of the Neurobiology of Addiction
- A Brief Overview of Motivational Interviewing Basics
 - Screening, Brief Intervention, and Referral to Treatment (SBIRT)
 - Identifying Unhealthy Substance Use: Assessment
 - Treating Substance Use Disorders with Medication and Counseling

ASAM

PAIN & ADDICTION

Common Threads XXIV

Overview

The ASAM Pain & Addiction: Common Threads Course is one of ASAM's longest-running and most popular courses. This advanced course deepens learners' understanding of complex topics and improves treatment of patients who fall somewhere in the gray area around pain and addiction. You will learn about the newest and most pressing research developments affecting treatment and how to integrate these techniques into your own practice.

Audience

Experienced healthcare providers who want to stay abreast of new research and practices in pain and addiction.

Theme

Navigating pain and addiction challenges across transitions of care.

Topics

- Emergency Department Practices for Acute Pain
- Inpatient and Perioperative Pain Management
- Ketamine and Other Hallucinogenic Drugs
- Coordinating Outpatient Pain and Addiction Care
- Suicide and Unintentional Overdoses
- Understanding the Revised CDC Guidelines
- Buprenorphine Pharmacology, Formulations, and Misconceptions
- Low-dose Buprenorphine Induction Strategies
- Nicotine Use Disorder and Pain
- Concepts from Palliative Care
