

PROGRAM & SCHEDULE

ASAM Virtual.2021: Coming to a Computer Near You!

- V** Variety of offerings including 70+ concurrent sessions, 100+ posters, and three pre-conference courses
- I** Inspiring, thought-provoking plenaries with nationally-respected experts to kick off each day
- R** Revamped session formats for maximum audience engagement and interaction
- T** Timely topics like treating addiction during COVID-19 and overcoming health disparities
- U** Unique virtual networking opportunities to foster laughs and connections with colleagues
- A** Active virtual poster hall with innovative research and live author interactions
- L** Lots of helpful resources for your practice, patients, and communities!

ASAM has been awarded the highest level of Accreditation with Commendation by the Accreditation Council for Continuing Medical Education (ACCME) as a provider of continuing medical education (CME) for physicians.

Don't miss the nation's largest and premier conference on addiction medicine—going virtual once again! For the second year in row, ASAM is offering 80+ hours of CME/CE/MOC through two-and-a-half days of high-quality education, innovative topics, sessions, posters and supplemental virtual courses in a completely online platform. Newly-revamped and interactive pre-conference courses will be offered prior to ASAM Virtual.2021 to include the virtual-live Fundamentals and Motivational Interviewing Workshops and ever-popular Pain & Addiction Common Threads Course.

Each day of ASAM Virtual.2021 kicks off with an inspiring, thought-provoking plenary session followed by seven concurrent sessions offered consecutively throughout the day. A revamped virtual learning platform promises maximum audience engagement, interaction with experts and creative opportunities for fun and networking. In between sessions, stop by the Virtual Poster Hall, featuring audio narration and live-chat Q&A with poster authors, or check out the Virtual Exhibit Hall.

Learning Objectives

At the end of the virtual conference, participants should be able to:

- Identify and describe the new developments affecting the science, policy, and clinical practice of addiction medicine.
- Compare presented clinical guidelines/best practices with the participant's current practice and identify strengths or gaps.
- Analyze new research and science to develop practical applications for treatment or further research.
- Explain recent or upcoming policy changes and identify implications or areas for provider involvement.
- Create a network of professionals and a set of resources to support the participant's practice.

OPENING SCIENTIFIC PLENARY SESSION

Thursday, April 22, 2021 | 10:00 am – 11:30 am ET | Virtual-Live and On-Demand

ASAM Virtual.2021 begins with an energizing Opening Scientific Plenary Session moderated by ASAM President Paul H. Earley, MD, DFASAM. Distinguished presenters of the opening session will focus on providing cutting-edge science and an inspiring look at heroes on the frontline.

Nora D. Volkow, MD

Gail D'Onofrio, MD, MS, FACEM, FASAM

Carolyn Jones

Nora D. Volkow, MD – Director, *National Institute on Drug Abuse, National Institutes of Health*

Substance Use Disorders and COVID-19: Intertwined epidemics

In addition to the continued growth in the Nation's opioid epidemic in recent years, there has been an alarming resurgence in stimulant use—including cocaine and methamphetamine. The devastating overdose fatality tolls that these crises have exacted have made finding effective strategies all the more urgent. This, compounded by the further increases in drug use and overdose deaths attributed to the COVID-19 pandemic, is bringing to light some unique social and structural challenges faced by those with substance use disorders.

Gail D'Onofrio, MD, MS, FACEM, FASAM – Albert E. Kent Professor & Chair, Department of Emergency Medicine, *Yale University Hospital*
R. Brinkley Smithers Distinguished Scientist Award Recipient

ED-initiated Buprenorphine for Opioid Use Disorder: Should it be a choice?

R. Brinkley Smithers Distinguished Scientist Award Recipient Dr. D'Onofrio will discuss innovative solutions for increasing access to medications for opioid use disorder in the frontline emergency department setting. Dr. D'Onofrio will present what we know, and summarize ongoing research that has the potential to change practice and improve the care of patients with opioid use disorder.

Carolyn Jones – Director & Executive Producer, *In Case of Emergency*

In Case of Emergency: A filmmaker witnesses the opioid crisis

Carolyn Jones—award-winning author, photographer and filmmaker behind *The American Nurse Project*, *Defining Hope* and *In Case of Emergency*—has spent the last ten years documenting the work of

nurses in emergency department frontlines across the country. She most recently focused her lens on the emergency room, before and during the COVID-19 pandemic, discovering that emergency nurses all across the country share a deep and pressing concern: the opioid crisis.

BIG IDEAS PLENARY SESSION

Friday, April 23, 2021 | 9:30 am – 11:30 am ET | Virtual-Live and On-Demand

Why Diversity Matters for Addiction Treatment & Prevention

This session features BIG IDEAS that are shaping the future of addiction medicine, and this year is all about diversity and health equity. First, draw inspiration as ASAM President Paul H. Earley, MD, DFASAM, recognizes award recipients with personalized video clips of these individuals who have made major contributions to the field. ASAM Board Member Brian Hurley, MD, MBA, DFASAM, will then introduce the Deputy Director of the National Institute of Minority Health and Health Disparities, followed by world-renowned civil rights activist and icon, and moderate an engaging Q&A with these distinguished experts.

Monica Webb Hooper, PhD

Monica Webb Hooper, PhD – Deputy Director, *National Institute on Minority Health and Health Disparities, National Institutes of Health*

Third Generation Research to Address Health Disparities & Achieve Health Equity in Addictions

Health disparities in addictive behaviors and treatment are longstanding. The field is encouraged to push full speed ahead into third, and ultimately fourth generation, health disparities research—with the goal of achieving health equity. Authentic community-engaged approaches that seek to understand and address social determinants that impact the risk of substance use, including tobacco products, are especially vital in the age of COVID-19. We must ensure that populations disproportionately affected are not further left behind and receive the needed culturally and community competent care.

“I really appreciated being able to participate virtually at ASAM Virtual.2020 and to have the on-demand videos for future reference.”

Camara Phyllis Jones, MD, MPH, PhD

Camara Phyllis Jones, MD, MPH, PhD – Senior Fellow and Adjunct Associate Professor, Community Health and Preventive Medicine, *Morehouse School of Medicine*; Adjunct Professor, Rollins School of Public Health, *Emory University*; Past President, *American Public Health Association*

Naming Racism & Moving to Action

Dr. Jones will make the case that it is important to name racism, because racism is foundational in our nation's history and yet many people are in staunch denial of its continued existence and profoundly negative impacts on the health and well-being of the nation. She will share allegories and definitions to illustrate four key messages when naming racism: racism exists; racism is a system; racism saps the strength of the whole society; and we can act to dismantle racism.

“It was empowering to see leaders in the field addressing topics relevant to my practice at last year's ASAM Virtual.2020.”

POLICY & SCIENCE PLENARY SESSION

Saturday, April 24, 2021 | 10:00 am – 11:30 am ET | Virtual-Live and On-Demand

Advancing Racial Justice & Structural Competency in Addiction Medicine

This plenary session, moderated by ASAM Board Member, Anika Alvanzo, MD, MS, FACP, DFASAM, will feature addiction and policy experts who will explore how racism influences addiction prevalence, access to evidence-based treatment, treatment outcomes, research and drug policies, with a specific focus on Black Americans. Speakers also will provide guidance on how healthcare professionals who treat addiction can identify racism and promote structural competency in their practices and beyond. These talks will be followed by a panel discussion on how racism affects addiction treatment practices and people who use drugs, and steps that panelists have taken to promote structural competency as part of patient care and advocacy.

Edwin C. Chapman, MD, FASAM

Helena Hansen, MD, PhD

Tracie Gardner

Edwin C. Chapman, MD, FASAM – Internal Medicine and Addiction Medicine Specialist, *Howard University Hospital*

Dr. Chapman has practiced in Washington, DC for over 40 years specializing in Internal Medicine and Addiction Medicine. He will present information on how racism influences addiction prevalence, access to evidence-based treatment, treatment outcomes, and research.

Helena Hansen, MD, PhD – Professor and Chair, Research Theme in Translational Social Science and Health Equity, David Geffen School of Medicine, *UCLA*

Dr. Hansen recently co-authored a book titled “Structural Competency in Mental Health and Medicine: A Case-Based Approach to Treating the Social Determinants of Health.” Dr. Hansen will provide a high-level, conceptual overview of structural competency and provide guidance on how healthcare professionals who treat addiction can adopt a structural competency framework and apply it to practice.

Tracie Gardner – Vice President, Policy Advocacy, *Legal Action Center*

Tracie Gardner has worked more than 30 years in the public health, public policy, and not-for-profit fields as a policy advocate, trainer, and lobbyist. To better inform healthcare professionals who treat addiction, Ms. Gardner will speak about the impact of racism on people of color who use drugs from the perspective of a seasoned policy professional and a Black woman in recovery.

Continuing Medical Education Credits (CME/CE/MOC)

52nd

ASAM has been awarded the highest level of Accreditation with Commendation by the Accreditation Council for Continuing Medical Education (ACCME) as a provider of continuing medical education (CME) for physicians.

Accreditation in the ACCME System seeks to assure the medical community and the public that ASAM delivers education that is relevant to clinicians' needs, evidence based, evaluated for its effectiveness, and is independent of commercial influence.

ACCME Accreditation Statement

The American Society of Addiction Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

AMA Credit Designation Statement

The American Society of Addiction Medicine designates this other – blended, live and on-demand activity for a maximum of **22.5 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

American Academy of Family Physicians (AAFP)

Application for CME credit has been filed with the American Academy of Family Physicians. Determination of credit is pending.

American Academy of Physician Assistants (AAPA)

This program is not yet approved for CME credit. Conference organizers plan to request 22.5 AAPA Category 1 CME credits from the AAPA Review Panel. The total number of approved credits is yet to be determined.

NPs can often claim AAPA Category 1 CME credit as continuing education with AANPCB and ANCC. ASAM recommends that NPs check with their certification/licensing authority to confirm that AAPA credit is acceptable.
