CME Information

Target Audience

This course is designed to meet the educational needs for orthopaedic and neurological spine surgeons, fellows, residents, and allied health professionals engaged in the science and practice of spine surgery.

Statement of Need/Program Overview

Our purpose is to advance spine surgery and improve surgical outcomes, through ongoing educational interchange among spine surgeons, allied health professionals, and scientists, always adhering to the highest scientific and ethical standards.

Learning Objectives

After completing this activity, the participant should be better able to:

- Discuss research results in basic science, treatments and technologies in the field of spine surgery
- Evaluate and recommend treatment and surgical options for patients with various spine conditions
- Describe and compare innovative technologies in both assessment and treatment options for various spine conditions

JOINT PROVIDERSHIP

This program is jointly provided by Medical Education Resources, Inc (MER) and the International Society for the Advancement of Spine Surgery (ISASS).

ACCREDITATION STATEMENT

In support of improving patient care, this activity has been planned and implemented by Medical Education Resources (MER) and the International Society for the Advancement of Spine Surgery (ISASS). MER is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME).

PHYSICIAN CREDIT

Medical Education Resources designates this live activity for *AMA PRA Category 1 Credit(s)*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

DISCLOSURE OF ALL FINANCIAL RELATIONSHIPS

Medical Education Resources insures balance, independence, objectivity, and scientific rigor in all our educational activities. In accordance with this policy, MER identifies conflicts of interest with its instructors, content managers, and other individuals who are in a position to control the content of an activity. Reported financial

relationships are mitigated by MER to ensure that all scientific research referred to, reported, or used in a CE activity conforms to the generally accepted standards of experimental design, data collection, and analysis. MER is committed to providing learners with high-quality CE activities that promote improvements or quality in health care and not the business interest of an ineligible company.

FDA (UNITED STATES)

Some drugs and medical devices demonstrated during this course have limited FDA labeling and marketing clearance. It is the responsibility of the physician to be aware of drug or device FDA labeling and marketing status.

COMMERCIAL SUPPORT

Various medical companies have been invited to exhibit and provide grants for this course. Full disclosure of financial and other support will be provided in the course materials.

DISCLAIMER

ISASS, MER, and BroadWater disclaim any and all liability for injury or other damages resulting to any individual attending a scientific conference and for all claims that may arise out of the use of techniques demonstrated therein by such individuals, whether these claims shall be asserted by a physician or any other person.
