Reasons to Attend

JADPRO Live 2023

Empower Your Practice

Join us at JADPRO Live to build on your oncology knowledge, demonstrate the value of the advanced practitioner role, and discuss ways to improve care for patients with cancer. With an agenda designed by and for advanced practitioners, you'll gain insights that you can bring back to your practice.

Network With Colleagues

Tap into the expertise of your peers with networking opportunities happening throughout the conference.

- **New!** Join the **Poster Walk** to delve deeper into new perspectives, methodologies, and findings.
- Book a **Braindate**—a knowledge-sharing conversation—on a subject you're passionate about.
- Choose from several expert-led dialogues at **AP Talk: Peer Roundtables** on the pressing issues facing oncology advanced practitioners today.
- New to JADPRO Live? The **First-Time Buddy Program** pairs you with another advanced practitioner attendee who will help you navigate your first conference.
- **And much more!**

Get Ahead of the Curve

New! Jumpstart JADPRO Live with your choice between two pre-conference activities.

- New DEA guidance requires prescribers to complete 8 hours of education on safely prescribing controlled substances. Get a head start by attending the **Cancer Pain Management** pre-conference seminar.
- Join the **New-to-Oncology Roundtables** to learn from AP leaders about day-to-day challenges and successes of the oncology AP role.

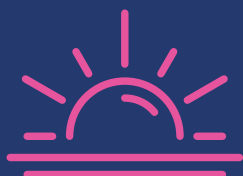

Maximize Your Time and Budget

Get the maximum return on your time and educational funds at JADPRO Live. Nurse practitioners, physician assistants, and pharmacists can earn more than 25 CE credits/hours. You'll also have access to live-streamed and on-demand CE-accredited presentations—all at an unprecedented value.

Enrich Your Expertise

Get answers and resources by interacting with representatives at leading pharmaceutical companies and cancer organizations in the Exhibit Hall. In addition, browse through the latest innovations in advanced practice and oncology research in the Poster Hall.

Discover the Sunshine State

Escape to the beauty and thrill of Florida at Orlando World Center Marriott. Enjoy the water park featuring a 575-foot lazy river, experience world-class cuisine, or extend your stay after the conference and take the daily shuttle to Walt Disney World and Disney Springs.

Invitation From the Chair

Dear Colleagues,

On behalf of JADPRO and the Advanced Practitioner Society for Hematology and Oncology (APSHO), I'm pleased to invite you to join us for JADPRO Live 2023 in Orlando.

As we know, oncology is an ever-evolving field with advances that frequently change the paradigm of how we care for patients. We've curated an agenda that addresses the latest in hematology/oncology and provides actionable insights for you to bring back to your practice. Our faculty come from diverse institutions, specialties, and backgrounds to provide a comprehensive view of the state-of-the-science.

Just like the field of oncology, the AP role is dynamic and constantly innovating to keep up with patient needs and maintain a high quality of care. There is no question that advanced practitioners transform the lives of patients with cancer. But they are also transforming the profession and models of multidisciplinary care, forging their own paths in clinical practice, leadership, administration, research, and more. That is why the theme of this year's conference is **"Shaping the Future of Oncology."**

So bring your questions, your passion, and your sense of discovery to the educational sessions, networking events, poster presentations, Exhibit Hall, and more. Together, let's shape the future of oncology and be a driving force that propels patient care forward.

Join me this fall for a formative experience! I look forward to meeting you in Orlando.

Amy Pierre, MSN, RN, ANP-BC
Memorial Sloan Kettering Cancer Center/Flatiron Health
Chair, JADPRO Live 2023

Agenda Highlights

Machine Learning and Personalized Medicine: From Precise Diagnosis to Precision Treatment

Accreditation

This activity is jointly provided by the Annenberg Center for Health Sciences at Eisenhower and Harborside Medical Education.

Continuing Education Credit

To be eligible for documentation of credit, participants must attend the full activity and submit a completed evaluation form. Participants must complete the evaluation online by December 31, 2023.

Learning Objectives

- **Identify** treatment procedures for patients with select solid tumors and hematologic malignancies, based on recent FDA approvals and practice guideline updates
- **Assess** the clinical relevance of efficacy and safety data from recently published studies of cancer therapies
- **Recognize** and manage adverse events (AEs) associated with newer systemic therapies, and
- **Apply** collaborative approaches to enhance communication with, and the quality of life of, patients undergoing treatment for cancer

Intended Audience

The intended audience for this live conference is nurse practitioners, physician assistants, clinical nurse specialists, advanced degree nurses, hematology/oncology nurses, pharmacists, and clinicians who specialize in the field of oncology.

Disclosure Statement

It is the policy of the Annenberg Center for Health Sciences at Eisenhower (Annenberg Center) to ensure fair balance, independence, objectivity, and scientific rigor in all programming. All individuals with the potential to impact the content of an accredited education activity are expected to identify and reference off-label product use and disclose relevant financial relationships with ACCME-defined ineligible companies.

The Annenberg Center for Health Sciences assesses relevant financial relationships with its instructors, planners, managers, and other individuals who are in a position to control the content of CE activities. All relevant financial relationships that are identified are thoroughly vetted by the Annenberg Center for fair balance, scientific objectivity of studies utilized in this activity, and patient care recommendations. The Annenberg Center is committed to providing its learners with high-quality CE activities and related materials that promote improvements or quality in healthcare and not a specific proprietary business interest of an ineligible company.
