

NHIA24

March 23-27, 2024
ONSITE PROGRAM

Austin, TX

Welcome

On behalf of the NHIA Board of Directors and staff, we could not be more excited to welcome you to Austin for the 2024 NHIA Annual Conference, the only event dedicated to the home and alternate site infusion industry. We know that your time is more valuable than ever and it means a great deal to us that you are making the investment to attend this year's event. As always, our goal is to provide attendees with an experience rich in opportunities to learn, network, and explore new products and services in our popular exhibit hall.

Once again, NHIA's Education Committee has developed an exceptional line-up of conference programming. Year after year, these volunteers—infusion professionals like you—put a remarkable amount of time and expertise into planning this event. From their perspective on the ground, they identify the most relevant issues impacting the profession to develop cutting-edge education, exhibits, and events for an unrivaled attendee experience. In addition to daily education sessions, NHIA will bring you up to date on high priority advocacy issues, such as the federal legislative efforts to fix the Medicare Part B services benefit, proposed changes to the DMEPOS drug eligibility criteria, billing the new IVIG benefit, as well as implementing the U.S. Pharmacopeia sterile compounding standards, and more. There will also be ample opportunity to learn from one another with our popular roundtable sessions, which we have moved up earlier in the conference to help you meet and connect with like-minded professionals from the outset. Our largest exhibit hall ever will feature an elevated experiential Learning Lab—a great opportunity for additional education while you're eating lunch—and the opportunity to win great prizes with the interactive Infusion Passport game. Our continually growing research abstract poster session provides insight into the latest research in home and alternate site infusion practice. And the extremely popular Sterile Compounding Clinic is back where you can step into a simulated compounding lab to practice your compounding skills and learn practical tips for ongoing compliance with the latest standards.

No conference would be complete without a chance to interact with your peers. Carve out time for social events like the Welcome Reception, Opening General Session, and signature Networking Event—held at Bangers on historic Rainey Street. Finally, you won't want to miss events that celebrate the accomplishments of individuals who have made significant contributions to the profession. The newest class of NHIA Fellows will be recognized at the Foundation Celebration, a can't miss evening that supports the mission of the National Home Infusion Foundation to promote research and leadership development. Back this year is the successful DEIA & Leadership General Session, where we will honor the winner of the Lynn Giglione Women in Leadership Award.

As always, we couldn't host an event like this without supporters. We are truly delighted by the growing number of companies demonstrating their support for the infusion community and NHIA—please make it a point to visit and thank them during your stay. Thank you again for attending the emblematic event of the home and alternate site infusion industry. We hope you leave feeling inspired and prepared to succeed in today's dynamic health care environment.

Connie Sullivan
President & CEO

NHIA is the leading organization representing companies that provide medically necessary infusion therapies to patients in alternate sites, as well as the manufacturers, suppliers, and service companies that support the field.

NHIA is committed to meeting the needs of its growing and diverse membership. Our mission is to provide advocacy, education, and resources to the home and alternate site infusion community so the patients they serve can lead healthy, independent lives. NHIA is excited to launch new member programs and resources. Please visit us in the Exhibit Hall at NHIA Central to learn more, find us online at <https://nhia.org> or email our team at membership@nhia.org.

ATTEND TO LEARN ABOUT IMPORTANT UPDATES IN:

- ILE landscape in 2024
- Best practice in calorie requirements/distribution
- Preventing essential fatty acid deficiency vs providing calories
- ILE best practices for parenteral nutrition mixture stability and compatibility

Learning Objectives

After completing this activity, participants will be better able to:

- Select the appropriate dose of various intravenous lipid emulsions to prevent essential fatty acid deficiency in adult and pediatric home-based patients
- Demonstrate appropriate management of intravenous lipid emulsions in adult home-based patients
- Identify appropriate solutions using newer intravenous lipid emulsions that ensure stability and compatibility

For Pharmacists and Nurses

Interprofessional Joint Accreditation Statement

 In support of improving patient care, this activity has been planned and implemented by MedEducus LLC and Amedco LLC. Amedco LLC is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team. Amedco Joint Accreditation #4008163.

Pharmacists and Pharmacy Technicians (ACPE) Credit Designation

Amedco LLC designates this activity for a maximum of 1.0 knowledge-based CPE contact hour.

The only official Statement of Credit is the one you pull from CPE Monitor. You must request your certificate within 30 days of your participation in the activity to meet the deadline for submission to CPE Monitor.

Nurses (ANCC) Credit Designation

Amedco LLC designates this activity for a maximum of 1.0 ANCC contact hour.

Dietitians (CDR) Credit Designation

Amedco LLC designates this activity for a maximum of 1.0 CPEU.

This continuing education activity is provided by
Amedco in collaboration with MedEducus LLC.

This continuing education activity is supported through an educational grant from
Fresenius Kabi USA.

INFUSION PASSPORT

How to Play:

1. Find your Passport in the conference tote bag you received at registration.
2. Visit all participating exhibitors to get your Passport validated.
3. Print your contact information on the back of the card.
4. Drop your complete Passport in the drum located in the NHIA Booth (booth 417) in the exhibit hall.
5. Limit one entry per person.
6. Drawings will be held in the Exhibit Hall, **Tuesday, March 26 at 12:00 PM**
7. Go to NHIA booth (booth 417) to collect prizes!

Play and enter to win great prizes like \$100 gift cards and FREE registration to NHIA2025!

Infusion Passport exhibitors as of March 1, 2024

Benefits of **NHIA** Membership

Member company staff can access NHIA member resources for no additional fee – please contact our membership team to enroll in NHIA benefits.

Member Benefits Overview

- **INFUSION Magazine & Infusion Journal**
- **NHIA University** online education platform
- **NHIA Community** member-only forum and resources
- **Infusion Express** e-newsletter delivers the latest infusion industry news to your inbox weekly.
- **NHIA Advocacy** addresses a range of important health care issues for members and their patients.
- **Online Member Directory** lists NHIA Member organizations for patients and others to find your business.
- **Online Job Board** with free postings for NHIA Members
- **Member Discounts for the NHIA Annual Conference**

NHIA Community

community.nhia.org

- **Member-Only Forum**
 - Discussion topics include clinical best practices, reimbursement challenges, operations support, and more!
- **Exclusive Member Resources**
 - INFUSION Magazine archives
 - *Infusion Journal* archives
 - Reimbursement Reference Guides
 - Research & Benchmarking
- **Individual Member Directory**
- **Upcoming Webinars & Events**
- **Volunteer & Professional Development Opportunities**

NHIA University

learn.nhia.org

- A personalized learning platform covering all aspects of home & alternate site infusion services
- **Continuing education (CE) credits** available for Pharmacists, Pharmacy Technicians, Nurses, & Dietitians
- **More than 80 educational programs**
- **Types of content include:**
 - INFUSION Magazine CE articles, webinars, courses, recorded conference sessions
- **Categories of education include:**
 - Sterile compounding, nursing, revenue cycle, business & leadership, clinical, nutrition support, and more!

supported by **Baxter**

Continuing Education

NHIA is offering Continuing Education credits (CEs) through the Conference App. A code will appear on the screen at the end of each CE activity. Make note of the code.

Using the Conference App, click on the “surveys” tile at the bottom of the main screen and navigate to your personal task list within your Survey Magnet. Complete your tasks and collect your CE!

Download a Certificate of Attendance certifying you attended the 2024 NHIA Annual Conference!

All 2024 NHIA Annual Conference education programs are accredited for pharmacy, nursing, and dietitian continuing education, unless otherwise noted. Educational learning objectives and associated continuing education information for each session can be found in the NHIA Conference App. Attendees will have 45 days (until May 11, 2024) to claim credit for LIVE CE participation.

PHARMACISTS AND PHARMACY TECHNICIANS

The NHIA Annual Conference is Supported by Educational Review Systems, which is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education.

NURSES

Educational Review Systems is an approved provider of continuing nursing education by Alabama State Nurses Association, an accredited approver of continuing nursing education by the American Nurses Credentialing Center, Commission on Accreditation. Educational Review Systems is also approved by the state of California, the state of Florida, and the District of Columbia.

DIETITIANS

Educational Review Systems (provider number ED002) is a continuing professional education (CPE) accredited provider with the Commission on Dietetic Registration. Registered dietitians and dietetic technicians, registered, can receive CPE units by attending pre-approved sessions as noted in the NHIA Conference App. Dietitian knowledge levels and learning codes are listed in the App for CPE-approved sessions.

Don't need CE?

Share your opinions anyway! Use the QR code on the last slide for each session to provide feedback. This helps NHIA improve the annual conference and develop programs focused on meeting your educational needs.

Networking Events & Opportunities

Welcome Reception

SATURDAY, MARCH 23 | 6:00 – 8:00 PM

Hilton Austin–Grand Ballroom Foyer, 6th Floor

Kick off the conference at our welcome reception. It's a popular place to meet attendees before the conference gets started. Refreshments and appetizers will be served.

Exposition Grand Opening & Reception

SUNDAY MARCH 24 | 4:30 – 7:00 PM

Austin Convention Center – Exhibit Hall 4-5

Join us for the Grand Opening of the NHIA Exhibit Hall. Learn about innovative products and services from over 120 exhibitors. Enjoy complimentary food and beverages as you peruse the hall networking with colleagues and business partners.

Supported by **IMS**
INTEGRATED MEDICAL SYSTEMS

Signature Networking Event at Bangers on Rainey Street

TUESDAY, MARCH 26 | 6:30 – 9:30 PM

79 Rainey St, Austin, TX

This year's event will be at Banger's Sausage House and Beer Garden, right on the action-packed and historic Rainey Street in downtown Austin. The classic venue is a wonderful place to eat, drink and hang out and boasts quality food made from scratch, including an on-site smokehouse, fermentation program and curing mastery. Bangers is often listed as a top place to visit while in Austin both for its food and the fun, relaxed, and welcoming atmosphere.

Additional Networking Opportunities for 2024

SUNDAY LUNCH & LEARN SESSIONS

Enjoy a buffet lunch with your peers before two of NHIA's most popular and anticipated sessions, the "New Drugs and Biologics" and "2024 Infusion Therapy Standards."

MONDAY NETWORKING BREAKFAST

This year we are providing an hour-long networking breakfast prior to the start of the opening General Session. Don't miss this opportunity to start your morning off right.

TUESDAY MORNING COFFEE

This year we are providing ample time to get your day started with a warm caffeinated beverage and networking conversations with your peers at the conference center.

TUESDAY DESSERT BREAK

Enjoy dessert and time to network in the General Session Room before the DEIA & Leadership General Session and Keynote.

WEDNESDAY MORNING RECHARGE NETWORKING BREAKFAST

Enjoy a continental networking breakfast to refuel before the conference's final educational sessions that will build on each other across two time slots.

Foundation Celebration

MONDAY, MARCH 25 | 6:45 – 8:00 PM

Hilton Austin – The Reverber

 Ticket Required

Join us in the Hilton Austin's indoor/outdoor event space with live local music as we celebrate the National Home Infusion Foundation (NHIF) and recognize the 2024 Class of NHIA Fellows. Attendees will enjoy food and drinks while mingling in collective revelry for the outstanding work NHIF produces in support of the home and alternate site infusion industry. **100% of ticket sales go directly to supporting NHIF initiatives.**

Individual tickets (\$125) can be purchased at the NHIA Registration Desk located on the Exhibit Hall level of the Austin Convention Center. The National Home Infusion Foundation (NHIF) is recognized as a 501(c)(3) nonprofit organization by the IRS, Tax ID# 46-0567195. The fair market value of the goods and services received during the March 25, 2024, Raise the Foundation event is \$25. Consult with your tax advisor regarding the deductibility of your event ticket.

Keynote Sessions

LOCATION: Austin Convention Center–Ballroom D

Opening General Session Keynote

MARCH 24, 2024 | 3:00 PM – 4:30 PM

As a renowned speaker, best-selling author and successful branding and culture expert who rose from the front lines to turn a little-known family business into a \$2 billion dollar per year industry giant—**Kevin Brown** has studied countless organizations to understand what determines success.

At NHIA 2024's opening keynote, learn how a simple philosophy Kevin calls The HERO Effect® distinguishes world-class organizations and high-performance people and how it can help expand your vision, develop your potential, grow your results and take patient care to the next level.

Kevin Brown

Industry Keynote with Former VA Secretary Shulkin

MARCH 25, 2024 | 8:30 AM – 9:45 AM

Learn and ask questions about the current and future landscape of health care with the **Honorable David J. Shulkin, M.D.**

Shulkin served as the Ninth Secretary of the US Department of Veterans Affairs, previously serving as Under Secretary for Health. As Secretary, Dr. Shulkin represented the 21 million American veterans and was responsible for the nation's largest integrated health care system with over 1,200 sites of care, serving over 9 million Veterans. Prior to serving with VA, Secretary Shulkin was a widely respected physician and healthcare executive having served as chief executive of leading hospitals and health systems including Beth Israel in New York City and Morristown Medical Center in Northern New Jersey.

Cultural Health: A Pathway to Health Equity

MARCH 26, 2024 | 1:30 PM – 2:45 PM

Research has established the countless benefits of inclusive approaches to healthcare—as you build cultural health, this improves health equity and outcomes for all patients. But it is not always straightforward how to best achieve this in such a rapidly changing world with ever-increasing diversity.

Home infusion has always been at the forefront of meeting patients where they are. In this thought-provoking session, we will examine practical approaches to build on home infusion's patient-centered focus—caring for and responding to individuals, their unique identities and individual health needs and preferences. **Dr. Lauran Star** will cut through the jargon to eliminate confusion and leave you with a toolbox full of tips and solutions you can implement today.

Supported by **Baxter**

Dr. Lauran Star
Workplace Inclusion &
Diversity Psychologist

Join us from 3:00 PM - 4:00 PM
for a Fireside Chat, "In Pursuit of
Health Equity" with Dr. Star
Austin Convention Center–Ballroom G

Embark on a path that's seamless, supported, and superior

In the dynamic world of home infusion, navigating from referral to revenue is an intricate journey. Imagine a software solution that makes it all flow smoothly. Brighttree's all-in-one software does just that and more. Designed with the complexities of home infusion in mind, it connects all aspects of care and business management—aligning every role, from intake specialists to pharmacists, nurses to executives.

Discover how Brighttree can provide you with a seamless path to success.

NHIA Conference Agenda Day 1 & 2

Saturday, March 23, 2024

2:00 PM – 8:00 PM Registration Open – Austin Convention Center – Solar Atrium

6:00 PM – 8:00 PM

Kick off the conference with us at our welcome reception. Join old friends and meet new acquaintances during the fun meet and greet that launches our exciting 2024 conference. Refreshments and appetizers will be served.

Sunday, March 24, 2024

7:00 AM – 7:00 PM Registration Open – Austin Convention Center – Solar Atrium

7:30 AM – 1:30 PM

Executive Preconference (includes breakfast & lunch)

Supported by **MCKESSON**

8:00 AM – 8:45 AM The NHIA View: Industry Outlook for 2024
 8:45 AM – 9:45 AM An IRA Update for Home and Alternate Site Infusion Providers
 10:00 AM – 11:00 AM Trends in Gene Therapy and the Role of Home Infusion
 11:00 AM – 12:00 PM Can Legislation Fix America's Drug Shortage Problem?
 12:30 PM – 1:30 PM Is Oncology the Next Frontier for Home Infusion?

8:00 AM – 1:30 PM

Sterile Compounding Preconference (includes breakfast & lunch)

Supported by **MCKESSON**

11:45 AM – 1:30 PM

New Drugs and Biologics – Lunch & Learn

Supported by **PREMIER** | **innovatiX**

11:45 AM – 1:30 PM

New INS Standards – Lunch & Learn

Supported by **KahaFusion**

1:45 PM – 2:45 PM Educational Sessions (see page 26 for session details)

3:00 PM – 4:30 PM

NHIA Opening General Session

Supported by **brightree**
by ResMed

KEYNOTE: Kevin Brown

Let the HERO Effect Redefine Your Potential in Every Experience

Kevin Brown redefines what it means to be a hero. We've often heard that "heroes are ordinary people who do extraordinary things." As a renowned speaker, best-selling author and successful branding and culture expert who rose from the front lines to turn a little-known family business into a \$2 billion dollar per year industry giant—Kevin has studied countless organizations to understand what determines success. What Kevin has come to learn is that "heroes are extraordinary people who show up and choose not to be ordinary."

At NHIA 2024's opening keynote, learn how a simple philosophy Kevin calls The HERO Effect® distinguishes world-class organizations and high-performance people and how it can help expand your vision, develop your potential, grow your results and take patient care to the next level.

4:30 PM – 7:00 PM

Grand Opening of NHIA Exposition and Reception

Supported by **IMS**
INTEGRATED MEDICAL SYSTEMS

= Additional Registration Fee Required

Posters

The Annual Poster Session, **Monday, March 25, 1:00 PM – 2:30 PM**, is a dynamic, engaging program promoting the exchange of new research findings and showcasing innovative solutions to many of today's challenges! This interactive event provides an opportunity to interact face-to-face with authors, ask questions, discuss findings, and share information. ★ = **Outstanding Abstract Achievement Award Finalist**

01. In-Home Evaluation of an Actuated Mechanical Device for Patency Restoration of Clogged Gastrostomy-Jejunostomy Feeding Tubes
02. Access to Intravenous Immune Globulin and Patient Compliance: Follow-up Results from an IVIG Support Program
03. Analysis of a Practice Change to Reduce Overall Infusion Time with a 10% Immunoglobulin Product
04. Assessment of Pharmacist-Led Nutrition Support Interventions Conducted Under a Collaborative Practice Agreement in the Home Infusion Setting
05. A Multidisciplinary Approach to Keeping Up with the Pipeline for Novel, Complex Therapies in Home Infusion
06. Comparison Study on the Safety Outcomes for Oncology Infusions Received at Home Infusion Versus Outpatient Hospital-Based Infusion Center
07. Program to Improve Care Coordination in Patients Discharging from UMMC to FHI on Outpatient Parenteral Antimicrobial Therapy (OPAT)
08. Home Infusion vs Ambulatory Infusion Centers: Factors Related to Staff, Provider and Patient Preferences on Infusion Sites of Care
09. MMN and CIDP Patient Journey and Experience: A Qualitative Study
10. Retrospective Study of Safety and Efficacy of Rozanolixizumab-noli in Patients with Generalized Myasthenia Gravis in the Home-Infusion Setting
- ★ 11. Supporting Your Patient Beyond Immunodeficiency: A Dietitian-led Nutrition Pilot Program
- ★ 12. Daptomycin vs Vancomycin: A Cost Comparison in a Regional Home Infusion Pharmacy
13. Analysis of trough levels of total IgG, IgG subclasses, measles neutralizing antibodies and IgG antibodies to encapsulated pathogens after infusion of a 5% or 10% intravenous immunoglobulin
14. Enhancing Drug Adherence and Patient Outcomes: The Role of SCIG Pump Selection in Subcutaneous Immunoglobulin Therapy for Primary Immunodeficiency Disease
15. Home Parenteral Nutrition Patient Experience and Clinical Outcomes
16. An ASPEN Guideline-Directed Review of Hospital Discharge Parenteral Nutrition Orders Upon Transfer to the Home Setting
17. An Efficacy and Safety Evaluation of Continuous Infusion of Ceftolozane/Tazobactam for Treatment of Multidrug Resistant Gram-negative Infection in the Home Infusion Setting
18. Developing and Testing a Competency Program to Standardize Pharmacist Education and Training on Aminoglycoside Use in the Home Infusion Setting
19. The Use of Risankizumab-rzaa for Crohn's Disease in Home Infusion Patients
- ★ 20. Use of a Lipid Screening Tool to Identify Patients at Greater Risk of Infusion Reactions to Lipids in the Home Setting
21. Use of Continuous Vancomycin in the Home Infusion Setting
22. Intestinal Rehabilitation at Home: A Retrospective Review
- ★ 23. A Retrospective Review of Home Enteral Nutrition Referrals and Denials of Coverage: Implications for Access to Care and Negative Clinical Outcomes
- ★ 24. Diversity, Equity, and Inclusion in Home Infusion
25. Fat: Gram by Gram, What's the Big Picture? A Retrospective Review of Lipid Emulsions Across a 7-Month Period
26. Initiating Parenteral Nutrition in the Home: A Snapshot of Dosing Practices, Clinical Stability and Outcomes
27. PN-Associated Metabolic Bone Disease: Are There Practice Gaps in Calcium Dosing to Minimize Risk?
28. Weaning Medicare Patients from HPN: Is the LCD a Barrier to Doing the Right Thing?
29. A Review of a Multi-Site Home and Alternate Site Infusion Company's Catheter Infection Program. Lessons Learned Lead to Implementation of Revised Training Programs, Policy Revision and Cross Departmental Integration
30. Medicare Home Parenteral Nutrition Coverage Criteria Changes – Steps in the Right Direction, but Still Falling Short
31. Practical Nursing Considerations for Administering High-Dose/High-Volume Hyaluronidase-Facilitated Subcutaneous Immunoglobulin 10% in Patients with Chronic Inflammatory Demyelinating Polyradiculoneuropathy

Nursing Services

APS Health & Infusion Nursing Services hand selects experienced Infusion Nurses to provide exceptional care to our client's patients. We partner with a variety of specialty pharmacies nation-wide to provide patients with the highest quality of in-home infusion services that the patient and their family deserve. Our team of experienced Registered Nurses and Nurse Practitioners are specialized in the administration of medications and fluids through an intravenous (IV) line, central line, or venous access port, and are trained on specialized infusion medications for a multitude of reasons, including Congestive Heart Failure, Dehydration, Multiple Sclerosis, Immune Deficiencies, Hemophilia, Crohn's Disease and many more. Our nurses are seasoned and trained to provide safe, high-quality care to patients of all ages from the comfort of their homes. We have highly skilled and compassionate nursing care to minimize any anxiety about their infusion care so they experience positive outcomes. We currently service the following states: AL, CA, CO, FL, GA, KY, LA, MO, MS, NC, SC, TN, TX

Other

Specializing in chromogenic and turbidimetric reagent technologies, Associates of Cape Cod, Inc. (ACC) has been a global leader in endotoxin and (1 β 3)- β -D-glucans detection products and services for nearly 50 years. ACC pioneered LAL testing methodology and was the first FDA licensed company to manufacture LAL reagents, and throughout the years has grown to be an internationally recognized leader in endotoxin detection. With a dedication to quality, ACC is certified to I.S. EN ISO 13485:2016 and ISO 13485:2016. ACC introduce another first when we launched the first and only commercially available sustainable BET Recombinant Cascade Reagent (rCR), PyroSmart NextGen[®]. PyroSmart NextGen[®] is completely horseshoe crab blood free and unlike first generation recombinant BET reagents (rFC), PyroSmart NextGen[®] is the only one that uses the same LAL cascade as traditional LAL reagents, while eliminating the potential for 1,3-b-D-glucans. This eliminates the need to change test methods and purchase new specialized instrumentation as required by first generation rFC recombinant reagents. Simply put... Keep your Method... Make an Impact!

Accreditation Organizations

The Compliance Team's (TCT) industry-leading, nationally recognized accreditation programs can address all your infusion and pharmacy accreditation needs. As we celebrate our 30th year, we reflect on the health impact to the myriad of patients who have benefited from providers accredited by TCT. This includes those accredited for our Exemplary Provider® Medicare-approved Home Infusion Therapy (HIT), Physician Practice Infusion Ste, Ambulatory Site of Care, and Pharmacy Services Ste, which includes Community Pharmacy, DMEPOS, LTC (Site of Care), Compounding (USP 795 and 797), Specialty Pharmacy, Infusion, TelePharmacy, and our

cutting-edge Patient-Centered Pharmacy Home™ program. It also includes our CMS-approved Part B DMEPOS, CMS-approved Part A Rural Health Clinics, CMS-recognized Patient-Centered Medical Home (PCMH), and Health Department Clinical Services accreditation programs, as well as our certifications for Clinical Disease Management, Point of Care Testing, and Immunization. Our infusion accreditation programs recognize that the various sites of care are critical and equally require validation of best practices so that patient care can significantly improve.

TubeClear System (Actuated Medical)

BOOTH 829

320 Rolling Ridge Drive
Bellefonte, Pennsylvania 16823
(814) 355-0003
<http://www.tubeclear.com/>

Medical Supplies and Devices

The TubeClear System is a feeding tube clearing system that uses proprietary mechanical motion to clear partial and full clogs in feeding and decompression tubes (Tubes) while the Tube remains indwelling and at bedside. TubeClear was developed to assist healthcare practitioners with maintaining enteral medication and nutrition therapy. During delivery, medication and nutrition materials often build up on the inner walls of Tubes. Over time, this buildup narrows the inner diameter and causes the Tube to become sluggish and/or clog which impedes

critical enteral therapy delivery. Using the TubeClear System regularly helps to keep enteral therapy on schedule and using TubeClear quickly on clogged Tubes restores patency and enteral therapy schedules.

VIBATIV[®]
(telavancin) for injection

WHEN YOUR NEXT STEP IS CRITICAL

When the stakes have increased
and immediate success is necessary,
VIBATIV may give you
the efficacy needed.^{1,2,3,4,5}

INDICATION

VIBATIV is indicated in adults for the treatment of:

- Complicated skin and skin structure infections (cSSSI) caused by susceptible isolates of the following Gram-positive microorganisms: *Staphylococcus aureus* (including methicillin-susceptible and -resistant isolates), *Streptococcus pyogenes*, *Streptococcus agalactiae*, *Streptococcus anginosus* group (includes *S. anginosus*, *S. intermedius*, and *S. constellatus*), or *Enterococcus faecalis* (vancomycin-susceptible isolates only).
- Hospital-acquired and ventilator-associated bacterial pneumonia (HABP/VABP), caused by susceptible isolates of *Staphylococcus aureus* (both methicillin-susceptible and -resistant isolates). VIBATIV should be reserved for use when alternative treatments are not suitable. To reduce the development of drug-resistant bacteria and maintain the effectiveness of Vibativ and other antibacterial drugs, Vibativ should only be used to treat or prevent infections that are proven or strongly suspected to be caused by susceptible bacteria.

IMPORTANT SAFETY INFORMATION

WARNING: INCREASED MORTALITY IN HABP/VABP PATIENTS WITH PRE-EXISTING MODERATE OR SEVERE RENAL IMPAIRMENT, NEPHROTOXICITY, POTENTIAL ADVERSE DEVELOPMENTAL OUTCOMES

- Patients with pre-existing moderate/severe renal impairment (CrCl \leq 50 mL/min) who were treated with VIBATIV for hospital-acquired bacterial pneumonia/ventilator-associated bacterial pneumonia (HABP/VABP) had increased mortality observed versus vancomycin. Use of VIBATIV in patients with pre-existing moderate/severe renal impairment (CrCl \leq 50 mL/min) should be considered only when the anticipated benefit to the patient outweighs the potential risk.
- Nephrotoxicity: New onset or worsening renal impairment has occurred. Monitor renal function in all patients.
- Embryo-fetal toxicity: VIBATIV may cause fetal harm. In animal reproduction studies, adverse developmental outcomes were observed in 3 animal species at clinically relevant doses. Verify pregnancy status prior to initiating treatment and advise females of reproductive potential to use effective contraception.

Please visit www.vibativ.com for more information or see full accompanying Prescribing Information, including Boxed Warning.

Please visit www.vibativ.com for more information or see full accompanying Prescribing Information, including Boxed Warning.

IMPORTANT DOSAGE AND ADMINISTRATION INSTRUCTIONS

Because telavancin is eliminated primarily by the kidney, a dosage adjustment is required for patients whose creatinine clearance is ≤ 50 mL/min. There is insufficient information to make specific dosage adjustment recommendations for patients with end-stage renal disease (CrCl < 10 mL/min), including patients undergoing hemodialysis.

CONTRAINDICATIONS

Vibativ should not be used with intravenous unfractionated heparin sodium because the activated partial thromboplastin time (aPTT) test results are expected to be artificially prolonged for 0 to 18 hours after Vibativ administration. Do not be use in patients with known hypersensitivity to Vibativ (telavancin).

WARNINGS AND PRECAUTIONS

- Decreased efficacy among patients treated for cSSSI with moderate/severe pre-existing renal impairment. Consider when selecting antibacterial therapy for patients with baseline CrCl ≤ 50 mL/min.
- Laboratory tests: interferes with some laboratory coagulation tests, including prothrombin time, international normalized ratio, and activated partial thromboplastin time.
- Serious and potentially fatal hypersensitivity reactions, including anaphylactic reactions, may occur after first or subsequent doses. Use with caution in patients with known hypersensitivity to vancomycin.
- Administer VIBATIV over at least 60 minutes to minimize infusion-related reactions.
- *Clostridium difficile*-Associated Diarrhea: may range from mild diarrhea to fatal colitis. Evaluate if diarrhea occurs.
- Avoid use in patients at risk for QTc prolongation and who are taking drugs known to prolong the QT interval.

ADVERSE REACTIONS

The most common adverse reaction ($\geq 10\%$ of patients treated with VIBATIV) in the HABP/VABP trials is diarrhea; in the cSSSI trials, the most common adverse reactions ($\geq 10\%$ of patients treated with VIBATIV) include: taste disturbance, nausea, vomiting, and foamy urine.

USE IN SPECIAL POPULATIONS

Pediatric Use: Safety and efficacy have not been established. There is a concern for poor clinical outcomes in pediatric patients less than one year of age due to immature renal function.
