Welcome

On behalf of the NHIA Board of Directors and staff, we could not be more excited to welcome you to Nashville for the 2022 NHIA Annual Conference. It's hard to believe it has been 3 years since we last gathered in person, and it means a great deal to us that you are investing your time and resources to attend this year's event. Our industry, and all of health care, has gone through enormous change due to the global pandemic, and the annual conference provides a unique opportunity to both reflect on recent events and focus on the future. As always, our goal is to provide attendees with an experience rich in opportunities to learn, network, and explore new products and services in our popular exhibit hall.

Once again, NHIA's Education Committee has developed an exceptional line-up of conference programming. Year after year, these volunteers—infusion professionals like you—put a remarkable amount of time and expertise into planning this event. From their perspective on the ground, they identify the most relevant issues impacting the industry to create cutting-edge education, exhibits, and events that are unrivaled in the home and alternate site infusion space. In addition to daily education sessions, NHIA will bring you up to date on high priority advocacy issues, such as the federal legislative efforts to fix the Medicare Part B services benefit, coverage expansion for Medicare Part D drugs, COVID treatment policies, enteral and parenteral regulatory changes, U.S. Pharmacopeia sterile compounding standards, and more. There will also be ample opportunity to learn from one another with our popular round table and poster abstract programs. The always-lively exhibit hall will feature an Exhibitor Theater—a great opportunity for additional education while you're eating lunch—and the opportunity to win great prizes with the Infusion Quest Mobile App Game. And the extremely popular Sterile Compounding Clinic is back where you can step into a simulated compounding lab to practice your compounding skills.

No conference would be complete without a chance to interact with your peers. Carve out time for social events like the welcome reception, Opening General Session, and annual networking event—held at Florida Georgia Line House. Finally, you won't want to miss events that celebrate the accomplishments of individuals who have made significant contributions to the profession. The newest class of NHIA Fellows will be recognized at the Raise the Foundation cocktail reception and we close out the conference by honoring the winner of the Lynn Giglione Women in Leadership Award during a special luncheon. Ticket sales from these events support the mission of the National Home Infusion Foundation to promote research and leadership development.

As always, we couldn't host an event like this without sponsors. We are truly delighted by the growing number of companies demonstrating their support for the industry and NHIA—please make it a point to visit and thank them during your stay.

Thank you again for attending the signature event of the home and alternate site infusion industry. We hope you leave Nashville feeling inspired and prepared to succeed in today's dynamic health care environment.

Connie Sullivan, BSP Pharm
President & CEO

The National Home Infusion Association (NHIA) is the leading organization supporting the nation's home and alternate site infusion provider community and the manufacturers, suppliers, and service companies that support the industry.

NHIA is committed to meeting the needs of its growing and diverse membership. Our mission is to provide advocacy, education, and resources to the home and alternate site infusion community so the patients they serve can lead healthy, independent lives.

NHIA is excited to launch new member programs and resources — please visit us in the Exhibit Hall at NHIA Central to learn more!

To learn more about NHIA or inquire about membership please visit us at <https://nhia.org> or email our team at membership@nhia.org.

Pharmacy software solutions made better.

Our comprehensive suite of business management solutions for infusion pharmacy providers automates and streamlines every step in your workflow. Whether with referrals, patient intake, prescriptions, care plans, receivables or reporting, you'll see a reduction in errors and a savings in time so that your staff can spend it on better patient care.

And it's all backed by a team of seasoned industry experts to help you manage your patients, dispenses, deliveries, and billing seamlessly on our cloud-based platform.

Find your better way at Brighttree.com/infusion or call 1.833.916.1554.

Raise the Foundation Reception

Join NHIA Industry Leaders and Infusion
Community Colleagues for a Cocktail Reception to
Support the National Home Infusion Foundation

March 14, 2022 (6:30 PM – 7:45 PM)

Gaylord Opryland Resort & Convention Center | Crystal Gazebo

Unwind and socialize, network with colleagues, and build new relationships—all while supporting the Foundation's ongoing efforts to advance patient care through home infusion therapy education, research, and fostering the next generation of clinical leaders.

Individual tickets (\$125) can be purchased at the NHIA Registration Desk located in the Presidential Lobby.

**NHIA thanks the following sponsors
for their generous support of the
Foundation's special event:**

The National Home Infusion Foundation (NHIF) is recognized as a 501(c)(3) nonprofit organization by the IRS, Tax ID# 46-0567195. The fair market value of the goods and services received during the April 7, 2020, Raise the Foundation event is \$25. Consult with your tax advisor regarding the deductibility of your event ticket.

Networking Reception

March 15, 2022

7:00 PM – 10:00 PM

Florida Georgia Line (FGL) House

Enjoy a night to remember with stunning views of downtown Nashville, southern style dinner and hors d'oeuvres, local craft beers, a signature cocktail, and live music. Transportation departs from the Presidential Portico starting at 6:15 PM.

NHIA extends a special thank you to MHA, this year's Networking Event sponsor, for their generous support:

Please remember to bring your NHIA 2022 Annual Conference Badge with you. Your badge is your entrance into the event.

2022 NHIA Annual Conference Sterile Compounding Clinic Sponsors

Thanks to the following companies for their generous support of the
NHIA Sterile Compounding Clinic:

McKESSON

Women in Leadership Luncheon

March 16, 2022 11:30AM - 12:30PM

The National Home Infusion Foundation invites attendees to enjoy a special luncheon and networking session devoted to discussing how developing women leaders can strengthen the home infusion profession. Studies show that women in both nursing and pharmacy professions exceed the number of male counterparts, thus the home infusion industry needs to invest in strategies to ensure women can reach their full leadership potential.

During the luncheon, NHIA will be awarding the Lynn Giglione Women in Leadership Award. This coveted award recognizes and honors trail-blazing and emerging women leaders who have demonstrated exemplary service to patients and their peers while promoting the mission of the National Home Infusion Foundation. Candidates for this award have made significant contributions to the home infusion industry through their leadership and by inspiring others to overcome barriers to achieve excellence.

The luncheon also serves as a fundraiser for NHIF in order to sustain programs that advance the field of home and alternate site infusion through research, leadership development and the recognition of excellence. Tickets for this catered lunch (\$60) can be purchased at the NHIA Registration Desk located in the Presidential Lobby.

NHIA thanks the following supporter of the Women in Leadership Luncheon:

The 2022 NHIA Conference Mobile App has everything you need at your fingertips

- Personalize your conference schedule
- Obtain session or speaker information
- Apply for CE credits
- Download presentation handouts and take notes directly on slides
- Play the Infusion Quest game
- Navigate your visits to the Exhibit Hall
- Download certificate of attendance
- Evaluate speakers and conference and give us your ideas for NHIA 2023

Enhance your conference experience today!

Download the NHIA 2022 Conference App from Apple iTunes or Google Play.

Continuing Education

NHIA is offering CE's through the Conference App.

A code will appear on the screen at the end of each CE activity. Make note of the code.

Click on the "surveys" tile at the bottom of the main screen and navigate to your personal task list within your Survey Magnet. Complete your tasks and collect your CE!

All 2022 NHIA Annual Conference education programs are accredited for pharmacy, nursing, and dietitian continuing education, unless otherwise noted. Educational learning objectives and associated continuing education information for each session can be found in the NHIA Conference App.

Download a Certificate of Attendance certifying you attended the 2022 NHIA Annual Conference

PHARMACISTS AND PHARMACY TECHNICIANS

The NHIA Annual Conference is sponsored by Educational Review Systems, which is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education.

NURSES

Educational Review Systems is an approved provider of continuing nursing education by Alabama State Nurses Association, an accredited approver of continuing nursing education by the American Nurses Credentialing Center, Commission on Accreditation. Educational Review Systems is also approved by the state of California, the state of Florida, and the District of Columbia.

DIETITIANS

Educational Review Systems (provider number ED002) is a continuing professional education (CPE) accredited provider with the Commission on Dietetic Registration. Registered dietitians and dietetic technicians, registered, can receive CPE units by attending pre-approved sessions as noted in the NHIA Conference App. Dietitian knowledge levels and learning codes are listed in the App for CPE-approved sessions.

Don't need CE?

Share your opinions anyway! NHIA uses the data from our session feedback to improve our annual conference and develop programs focused on meeting your educational needs.

Roundtables

Check out the NHIA App for the most current list of Roundtables.

Engage with subject matter experts and network with your peers in a dynamic, highly interactive forum for exploring emerging trends in a variety of topics related to the delivery of home and alternate site infusion services. Gain new insights, share ideas, identify, and collaborate on solutions for some of the most critical challenges facing the industry.

	Facilitator(s)
ROUNDTABLE	
1 Advancing Your Role in Nutrition Care: Achieving the Certified Nutrition Support Clinician Credential	Katie Laskin
2 Developing the Next Generation of Home Infusion Pharmacists	Christopher Roy
3 Using Technology to Improve Revenue Cycle Performance	Rodney Wright
4 Medicare Updates and Hot Topics: Noridian and CGS	Cindy White & Judith Roan
5 How to Submit an Article to the Infusion Journal and the Launching of the Research Certificate Program	Danell Haines
6 What Color Bag is It?	Marianne Buehler
7 What's New in the IgNS Standards?	Stacey Ness
8 Hyperemesis Gravidarum: Home Infusion as an Ally in Care	Lisa Kinder
9 Managing Productivity for the Remote RCM Team Member	Jeanne Lugli
10 What is Medical Affairs and What Can These Professionals Bring to the Home Infusion Team?	Mandy Corrigan & Allison Hanson
11 Elasticity: It is Needed for More than Your Waistband	Cassandra Redmond
12 Standardizing Sterile Compounding Master Formulas Across Multiple Facilities and Specialties	Cara Baker
13 Onboarding New Pharmacy Technicians - What's Important?	Daniel Kyes
14 Applying Value to the "Value-Based" Future	Jonathan Ogurchak
15 Understanding the C&S and Making Recommendations to Enhance Patient Therapeutic Success	Kelly Percival
16 Technology Innovations Enabling Expanded Homecare Infusion: Overcoming Fear of Change to Deliver Safer, Patient-Centric Care	Tim Ealy
17 HIT and Accreditation: How to Survive the Survey	Felicia Schaps
18 Generational Differences in the Workplace	Cheryl Gast-Whitaker
19 Per Diem: Function, Application and Necessity for Infusion Services	David Franklin
20 Protect your Patients Veins: Think SUBQ. Take the EASI Path for Subcutaneous Infusions (A Systematic Review and Validated Integrated Care Pathway)	Brenda Gray
21 Staff Competency: More than Skills Labs and Media Fills	Barbara Petroff
22 Pumps and Medication Error Prevention: Safety is Paramount!	Kathy Puglise
23 Interoperability: Connecting with your Health System	Jennifer Keiser
24 Digital Transformation: Optimize Revenue for Growth and Retention	Terri Embry-Drummond
25 Managing the Home HIV Patient: Considerations for a Holistic Approach	Deborah Buonomo
26 Medication Error Prevention Best Practices for Home Infusion Pharmacist	Kasey Kunze
27 REMS Management to Ensure Compliance	Bridget Smith
28 Taking the Audit Challenge	Deanne Birch
29 Driving Organization Success Through Home Infusion Benchmarking Participation	Michelle Simpson
30 When Home Infusion Becomes Special: The Increasing Crossover between the Home Infusion and Specialty Worlds	Collin Cameron
31 Calculating HCPCS Units and To Use or Not to Use a Modifier	Cheri Sciacca
32 Cold Chain Crunch	Joshua Watson
33 Deactivating, Decontaminating, Cleaning and Disinfecting (DDCD)	Rad Dillon
34 The Value of CSTDs in Sterile Compounding	Rebecca Glover
35 How to Review a Cleanroom Certification Report	Glen Gard
36 Diversion & Medication Safety in Home Infusion	Tony Delamaza

Accord Healthcare

BOOTH 528

1009 Slater Road
Durham, North Carolina 27703
(630) 376-8310
501 Elm Street

Group Purchasing/Distributors, Pharmaceutical Companies

Accord Healthcare is a large-scale provider of generic pharmaceuticals in the United States. Our U.S. headquarters is in Durham, North Carolina, near the Research Triangle Park (RTP). Situated in a 7,000-acre pine forest, RTP is one of the largest research parks in the world. Close to three major research universities, the area provides an unparalleled scientific, regulatory, quality, and commercial talent pool. Accord is the commercial arm of Intas Pharmaceuticals, a pioneering biopharmaceutical company operating in India since 1976. Selling in over 80 countries, Accord has a vast global presence. The Accord and Intas networks provide full integration in the functional areas vital to delivering quality excellence and service efficiencies: API and finished dosage form manufacturing, R & D, clinical program management, and the economies of scale inherent in worldwide distribution.

Analytical Testing, Consulting/Compliance, USP Pharmacy Compliance Sterile Compounding Products and Service

Specializing in chromogenic and turbidimetric reagent technologies, Associates of Cape Cod, Inc. (ACC) has been a global leader in endotoxin and (1→3)-β-D-glucans detection products and services for nearly 50 years. ACC pioneered LAL testing methodology and was the first FDA licensed company to manufacture LAL reagents, and throughout the years has grown to be an internationally recognized leader in endotoxin detection. With a dedication to quality, ACC is certified to I.S. EN ISO 13485:2016 and ISO 13485:2016. ACC introduce another first when we launched the first and only commercially available sustainable BET Recombinant Cascade Reagent (rCR), PyroSmart NextGen™. PyroSmart NextGen™ is completely horseshoe crab blood free and unlike first generation recombinant BET reagents (rFC), PyroSmart NextGen™ is the only one that uses the same LAL cascade as traditional LAL reagents, while eliminating the potential for 1,3-b-D-glucans. This eliminates the need to change test methods and purchase new specialized instrumentation as required by first generation rFC recombinant reagents. Simply put... Keep your Method... Make an Impact!

2525 West End Avenue
Suite 950
Nashville, Tennessee 37203
(615) 255-0068
<http://www.cumberlandpharma.com>

For over 20 years, Cumberland Pharmaceuticals has improved the quality of patient care through the delivery of high-quality prescription medicines. With a focus on underserved niche markets, including hospital acute care, we supply products that offer distinct advantages over prior treatments. Our commitment to excellence propels us on our mission of providing innovative products that address poorly met medical needs.

Cura Surgical

BOOTH 223

2571 Kaneville Ct
Geneva, Illinois 60134
(630) 232-2510
<http://www.silverlon.com>

Medical Supplies and Devices

SILVERLON® wound dressings have a permanently plated metallic surface, which provides the antimicrobial benefits of silver in the dressing without staining the skin and without increasing bioburden. SILVERLON® was originally developed for the U.S. military, where it is still extensively used for management of burn and blast injuries. SILVERLON® dressings are used today by surgeons and other healthcare professionals around the world on surgical wounds, in negative pressure wound therapy, on chronic wounds, burns, skin grafts, and IV and catheter-related wounds. For more, visit Silverlon.com

DoseMeRx

BOOTH 535

228 Strawbridge Drive
Moorestown, New Jersey 08057
(832) 358-3308
<http://doseme-rx.com/>

Medical Software

DoseMeRx is the world's largest Bayesian dosing platform, trusted by more than 2,000 Clinical Pharmacists in 10 countries, to calculate 20,000 vancomycin doses every day. Powered by real people in real-time, it takes the uncertainty out of implementing AUC guidelines with its web-based and three-click EHR integration, dedicated implementation team, and 24-hour support. It is the only platform that holds a HITRUST certification (the gold standard for data security), meaning members can securely access it on any connected device, any time. Designed for everyday use, its user-friendly interface and patient visualization features make DoseMeRx the ultimate support tool for your clinical team – freeing up their time to do more of what they do best.

Suite C
Cincinnati, Ohio 45245
(855) 291-6701
<http://www.elitebiomedicalsolutions.com>

We started our business around 9 1/2 years ago out of the owner's basement and now reside in a 34,000 sq ft. facility in Cincinnati and employ 48 members. As a smaller company we are extremely capable, nimble, efficient and have the capacity to produce new plastic products into the marketplace. We manufacture new plastic replacement parts for multiple types/modes of infusion pumps, syringe pumps, pain-controlled pumps, as well as (part for telemetry units within the patient monitoring modality). We provide in-house and contract manufacturing, quality, metrology, reverse engineering, product development and equipment reports to our hospital and home healthcare customers. We have strong supplier and distribution channel patterns within the U.S. and serve over 1,500 U.S. hospitals with the number continuing to grow. We are a FDA registered company. Elite adheres to the FDA GMP, as well as certifications in both ISO 13485:2016 (for medical devices) and ISO 9001:2015 standards. We also are a certified as a small business with the SBA.

Medical Supplies and Devices

Clik-FIX™ Catheter Securement by Starboard Medical, Inc. is better for the home infusion patient. As a small, woman-owned medical device company competing against the mega-companies in this market, we have to be better, and we are. Clik-FIX catheter securement devices are better at... securing catheters, lowering the risk of pressure injury, accommodating delicate patient skin, reducing movement at the insertion site, reducing micropistoning, being comfortable for the patient, being easier to apply and remove, and providing cost savings. The Clik-FIX product line is 100% made in the USA and includes the Clik-FIX "All-in-One" PIV Securement, PICC/Central Securement, Soft PICC Securement, Neonatal PICC Securement, Universal Catheter Securement, and Foley Securement. All of our devices were designed with a cushioned base to help reduce pressure injuries, which is especially important for home infusion patients. Request free samples of any Clik-FIX device at www.starboardmedical.com/samples.
