# Advancing What's Possible: BETTER EVERY DAY

**Mimi Newell, MD, FSBI, FACR**  
2023 SBI Symposium Program Chair

Welcome to the 2023 SBI Breast Imaging Symposium! This May we gather in this wonderful place and space to broaden our knowledge, hone our skills, expand our social and professional networks, and experience emerging technologies and equipment updates first hand. The Symposium will feature a broad variety of topics as we explore ways to advance the care of our patients (including those who are underserved), optimize our own practices, and boost our careers and self-care. We will hear from seasoned speakers as well as new voices. In addition to updates on favorite topics, speakers will teach us about AI, forward-thinking screening paradigms (Shark Tank!), and how to thrive personally and

professionally in the rapidly changing world of medicine. There will be new ways to meet, reconnect and exchange ideas via our morning Breakfast Briefs. And of course we will have the opportunity to celebrate our society and our outgoing President John Lewin while raising money for research at the President's Gala!

My heartfelt thanks go out to the symposium planning committee and our dedicated and highly accomplished SBI staff, without whom the symposium is just a good idea. I express gratitude to our faculty, who work so hard and put so much care and pride into the educational offerings they present to us. Our corporate sponsors and exhibitors provide crucial support, information and updates; we thank them for joining us.

Mostly, I thank our attendees and members for being here this week, to learn, grow and forward our cause of minimizing the impact on breast cancer on all patients everywhere! Please enjoy our meeting!

#### I Gold Medalists

THURSDAY, MAY 4 TO DETECT AND DIAGNOSE

Physicians earn up to 22.75 CME

Technologists earn up to 19.75 CE

Learning Objectives

1. Summarize the current scientific literature and recommendations for breast cancer screening with mammography.
2. Understand which patients may be at risk for poorer outcomes and learn ways to mitigate the differences.
3. Recognize the role of risk assessment and tailored screening paradigms to improve breast cancer screening outcomes.
4. Describe newer modalities for breast imaging, including various supplemental modalities used in addition to mammography screening, the strengths and limitations of each, expected accuracy of interpretation, and up-to-date concepts regarding breast density assessment.
5. Identify different practice patterns, metrics, and challenges pertaining to varying breast imaging practices across the country and discuss new practice paradigms that may advance care and physician satisfaction.
6. Describe ideas on how to best administer breast imaging practices at the local level, while establishing overall practice guidelines at the national level that meet local needs.
7. Review barriers in access for breast imaging care to develop strategies for improved service lines.
8. Define best practices for management of common clinical scenarios.

Accreditation Information

**Physician Accreditation Statement** This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of Michigan State Medical Society and Society of Breast Imaging. The Michigan State Medical Society is accredited by the ACCME to provide continuing medical education for physicians.

**Physician Credit Designation** The MSMS designates this live activity for a maximum of 22.75 AMA PRA Category 1 Credit(s)<sup>™</sup>. Physicians should claim only the credit commensurate with the extent of their participation in this activity.

**Technologist Accreditation Statement** The American Society of Radiologic Technologist (ASRT) is approved by the American Registry of Radiologic Technologists (ARRT) as a Recognized Continuing Education Evaluation Mechanism (RCEEM)

to review and approve Continuing Education programs for Radiologic Technologists and Radiation Therapists.

**Technologist Credit Designation** The ASRT designates this educational activity as meeting the criteria for up to 19.75 Category A Credits accepted by the ARRT.

**Instructions to Receive Credit - Physician** In order to successfully complete the activity, participants must attend the meeting in person, complete an activity evaluation and claim credit commensurate with their participation in the activity. Click on the Claim Credit tile on the meeting webpage.

**Instructions to Receive Credit - Radiologic Technologists and Radiation Therapists** In order to successfully complete the activity, participants must attend the live meeting, complete an activity evaluation and claim credit commensurate with their participation in the activity. Radiologic Technologists and Radiation Therapists must validate attendance for the entire duration of a session; no partial credit will be given. In accordance with ARRT attendance requirements, SBI will provide live attendance validation for technologists. Click on the Claim Credit tile on the meeting webpage.

For information about the accreditation of this program, please contact SBI at [info@sbi-online.org](mailto:info@sbi-online.org).

Disclosure of Relevant Financial Relationships

The Society of Breast Imaging (SBI) Disclosure Policy: SBI adheres to the policies and guidelines, including the Standards for Integrity and Independence in Accredited CE, set forth to providers by the Accreditation Council for Continuing Medical Education (ACCME), stating those activities where continuing education credits are awarded must be balanced, independent, objective, and scientifically rigorous. All persons in a position to control the content of an accredited continuing education program provided by SBI are required to disclose all financial relationships with any ineligible company within the past 24 months. All financial relationships reported are identified as relevant and mitigated by MSMS in accordance with the Standards for Integrity and Independence in Accredited CE in advance of delivery of the activity to learners. All relevant financial relationships have been mitigated.

# SBI GOLD MEDALIST

The SBI Gold Medal recognizes individuals who have made outstanding contributions to the field of breast imaging and for distinguished and extraordinary service to the Society of Breast Imaging and other medical societies and organizations.

Join us in congratulating our  
**2023 GOLD MEDALIST**  
Murray Rebner, MD, FACR, FSBI!

Dr. Rebner is a Professor of Diagnostic Radiology and Molecular Imaging at Oakland University William Beaumont School of Medicine, and Staff Radiologist, Division of Breast Imaging, Corewell Health (formerly Beaumont Health) System, Royal Oak Campus. Under his leadership, his division introduced digital mammography, computer aided detection double reading for screening mammograms and MR guided breast biopsy to the women in Michigan. Dr. Rebner has authored or coauthored more than 50 publications in peer-reviewed journals and has presented multiple papers and posters at scientific meetings. He has received numerous awards throughout his career, including distinguished reviewer awards from the journal *Radiology*, a Best Doctors in America award for 14 years, and a Distinguished Service Award from General Electric for his dedication to the detection and diagnosis of breast cancer.

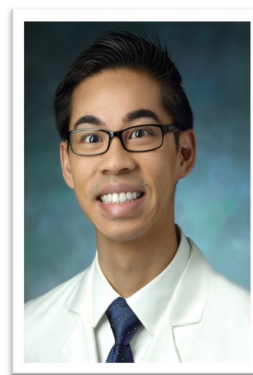

The mission of the SBI Research & Education (R&E) Fund is to support the research and education of breast imaging professionals. SBI wishes to offer travel grants to medical students, residents, and fellows who have been selected to present their original scientific work at the SBI Breast Imaging Symposium. Your generous donations will ensure these deserving young professionals—the future of the society—have the access, support, and resources they need to excel.

## WHAT YOUR DONATIONS SUPPORT: RESEARCH AWARD WINNERS

Two research prizes are awarded for abstracts presented at the annual Symposium: one to a medical student/resident and one to a fellow, based on scientific merit. Each oral abstract winner is awarded a \$1,000 honorarium.

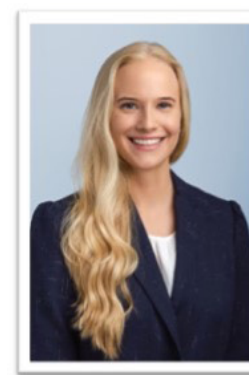

## 2023 WINNERS

Wendell Scott Research Award Winner

**Derek Nguyen, MD**  
Breast Imaging Fellow  
Duke University

Imaging Changes and Outcomes of Patients Undergoing Active Surveillance for Ductal Carcinoma in Situ

Gerald D. Dodd Jr., Research Award Winner

**Tiffany Clausen, MD**  
Medical Student, FIU  
Herbert Wertheim College of Medicine

# CAREER FAIR

Don't miss your chance to network and find your next career opportunity!

**THURSDAY, MAY 4**  
10:00 AM - 6:00 PM (EDT)  
**FRIDAY, MAY 5**  
10:00 AM - 6:00 PM (EDT)

## How it Works:

- Find new career opportunities from leading employers that are eager to hire.
- Connect directly with recruiters—easier and more effective than hitting the 'Apply Now' button.
- Build your network by continuing your conversations with recruiters weeks (and even months!) after the event is over.

*All this and more awaits you at the Career Fair during the 2023 SBI Breast Imaging Symposium.*

# President's Gala
