Reimagining Breast Imaging - SEEING OPPORTUNITIES TOGETHER

Linda Moy, MD, FSBI
2024 SBI Symposium Program Chair

Welcome to the 2024 SBI Breast Imaging Symposium! This year's symposium is held in collaboration with the Canadian Society of Breast Imaging under the theme "Reimagining Breast Imaging - Seeing Opportunities Together."

SBI 2024 offers invaluable networking opportunities and the chance to engage in a small and intimate atmosphere.

We organized four dedicated afternoon tracks for hot topics. We heard from you, and our program is packed with content our attendees want to learn about! Improve your interpretive accuracy using all modalities. Explore how to apply new

technologies. Learn about the clinical implementation of AI systems over two afternoons. Discover ways to care for our patients while making our practices more efficient. Realize new strategies to bolster our careers, new ways to work, and practice wellness.

With a robust education program spanning four days, there's something for everyone. From dedicated afternoon tracks to special sessions such as "The Great Debate," Shark Tank, Keynote Lecture, and a new Breast Reconstruction Awareness (BRA) track, you'll find it all at the SBI Breast Imaging Symposium. Connect with vendors and potential new partners in the Exhibit Hall and stay up to date on the latest cutting-edge technology. Finally, join us for the SBI President's Dinner (formerly Gala), a celebratory evening to support the SBI Research and Education Fund!

On behalf of the 2024 Symposium planning committee, we are thrilled to see you this week in Montréal for a stimulating and enriching symposium, where we will collectively reimagine the future of breast imaging.

2024 SBI Breast Imaging Symposium April 11, 2024 - April 14, 2024 Montreal, Canada

Learning Objectives

1. To understand how to optimize multimodality breast cancer screening and diagnosis in order to best serve diverse patient populations.
2. To learn the most appropriate screening and diagnostic exams to perform based on a woman's personal history and family history of breast cancer.
3. To familiarize oneself with the how artificial intelligence applications may be utilized in a breast imaging practice to optimize patient experience and care delivery.

Joint Accreditation Statement

In support of improving patient care, this activity has been planned and implemented by Amedco LLC and Society of Breast Imaging . Amedco LLC is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

JOINTLY ACCREDITED PROVIDER™
INTERPROFESSIONAL CONTINUING EDUCATION

Physicians

ACCME Credit Designation Statement

Amedco LLC designates this live activity for a maximum of 24.00 AMA PRA Category 1 Credits™ for physicians. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Radiologic Technologists

ASRT Credit Designation Statement

Application for Category CE credit has been submitted for consideration to the ASRT.

Instructions to Receive Credit - Physician

In order to successfully complete the activity, participants must attend the meeting in person, complete an activity evaluation and claim credit commensurate with their participation in the activity. Click on the Claim Credit tile on the meeting webpage.

Instructions to Receive Credit - Radiologic Technologists and Radiation Therapists

In order to successfully complete the activity, participants must attend the live meeting, complete an activity evaluation and claim credit commensurate with their participation in the activity. Radiologic Technologists and Radiation Therapists must validate attendance for the entire duration of a session; no partial credit will be given. In accordance with ARRT attendance requirements, SBI will provide live attendance validation for technologists. Click on the Claim Credit tile on the meeting webpage. For information about the accreditation of this program, please contact SBI at info@sbi-online.org.

Disclosure of Relevant Financial Relationships

The Society of Breast Imaging (SBI) Disclosure Policy: SBI adheres to the policies and guidelines, including the Standards for Integrity and Independence in Accredited CE, set forth to providers by the Accreditation Council for Continuing Medical Education (ACCME), stating those activities where continuing education credits are awarded must be balanced, independent, objective, and scientifically rigorous. All persons in a position to control the content of an accredited continuing education program provided by SBI are required to disclose all financial relationships with any ineligible company within the past 24 months. All financial relationships reported are identified as relevant and mitigated by Amedco LLC accordance with the Standards for Integrity and Independence in Accredited CE in advance of delivery of the activity to learners. 2024 GOLD MEDALIST
Elizabeth Morris, MD, FSBI!

Elizabeth Morris, MD, FSBI

Professor and Chair of Radiology at the University of California, Davis School of Medicine

Dr. Morris is a Fellow of the American College of Radiology, Society of Breast Imaging, and International Society of MR in Medicine (ISMRM), and a past president of SBI. She is the inaugural Equity Diversity & Inclusion Officer of ISMRM and co-chair of Women of ISMRM. Her research focuses on how to use newer techniques, such as MRI, for early breast cancer detection and to improve the workup of breast lesions. In collaboration with her colleagues, she has written over 230 papers, 40 chapters, and 5 books about breast diseases with an emphasis on the use of MRI. She has lectured both nationally and internationally at over 320 conferences. She has mentored over 50 international research fellows and has received grants from NCI, DOD, RSNA, Komen Foundation, and Breast Cancer Research Foundation.

SBI HONORARY FELLOW

Honorary Fellows are individuals who have made outstanding contributions to breast imaging and who are otherwise eligible for membership in the society. They are elected by a majority of the active SBI Fellows and remain dues exempt members for life.

Tiffany Gowen is a Director at the American College of Radiology Commission on Patient- and Family-Centered Care and Lead Staff, Breast Cancer Screening Leaders Group. She received her Master's in healthcare administration from Purdue University Global and is currently a Public Health doctoral candidate at Capella University School of Nursing and Health Sciences. She serves on the board of the Cancer Action Coalition of Virginia and the White Ribbon Project. She is a member of the American Cancer Society's National Lung and Breast Cancer Roundtables, and a co-founder of National Lung Cancer Screening Day. She is a fierce advocate for breast and lung cancer, screening, and equitable health care. She says that being a mom to her daughter Savannah and son Johnny is her favorite and most important job.

UNKNOWN CASE OF THE DAY!

Crack the case at the SBI Booth in the Exhibit Hall and in the Symposium mobile app for a chance to win a gift card! Two daily winners will be announced the following morning. The contest is open daily from 7am – 5pm.

Peter Eby, MD, FSBI will reveal all correct answers on Sunday, April 14th during the 2024 Case(s) of the Day: The Reveal session at 11:30am.

The mission of the SBI Research & Education (R&E) Fund is to support the research and education of breast imaging professionals. SBI wishes to offer travel grants to medical students, residents, and fellows who have been selected to present their original scientific work at the SBI Breast Imaging Symposium. Your generous donations will ensure these deserving young professionals—the future of the society—have the access, support, and resources they need to excel.

2024 ABSTRACT WINNERS

The Wendell Scott Research Award is presented to the most outstanding abstract submitted by a breast imaging fellow to the Symposium.

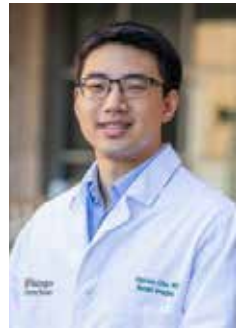

Join us in congratulating our 2024 Wendell Scott Research Award winner
Sherwin Chiu, MD!

Sherwin Chiu, MD

Breast Imaging Fellow

Abstract Title: **“Impact of Clinical Implementation of an Artificial Intelligence Program on Screening Mammography Outcomes”**

Sherwin Chiu is a breast imaging fellow at the Mallinckrodt Institute of Radiology. He received his bachelor’s degree in supply chain management from Texas A&M University before receiving his Master of Public Health degree and Medical Doctorate at the University of Alabama at Birmingham. He then completed a diagnostic radiology residency at Augusta University, where he was actively engaged in education and mentorship as a chief resident. His research interests include health care optimization and equity as well as implementation of artificial intelligence in radiology systems. His work has resulted in publications in peer-reviewed journals and oral and poster presentations at national conferences. He continues to be passionate about medical education and has given many resident and allied health lectures.

The Gerald D. Dodd Jr., Research Award is presented to the most outstanding abstract submitted by a medical student or resident to the Symposium.

Join us in congratulating our 2024 Gerald D. Dodd Jr., Research Award winner
Lily Kwak!

Lily Kwak-Medical Student,

Johns Hopkins University School of Medicine

Abstract Title: **“Evaluating the Association Between Allostatic Load and Malignant Pathology Result on Image-guided Core Needle Breast Biopsy”**

Lily is a third-year medical student at Johns Hopkins University School of Medicine. She grew up in New Jersey and received her bachelor’s degree in biological sciences from Rutgers University. Her radiology research interests include breast imaging, imaging-related health disparities, and artificial intelligence. She intends to pursue residency in diagnostic radiology. In her free time, she loves to write poetry, sing, and travel.

The International Abstract Award is presented to the most outstanding international abstract submitted to the Symposium.

Join us in congratulating our 2024 International Abstract Award winner Jirarat Jirarayapong, MD!

Jirarat Jirarayapong, MD

Abstract Title: “Supine Breast MRI for Preoperative Surgical Planning and Intraoperative Margin Assessment During Breast-conserving Therapy for Breast Cancer”

Jirarat is a breast radiologist at King Chulalongkorn Memorial Hospital of The Thai Red Cross Society, Chulalongkorn University in Thailand. She received the Doctor of Medicine Degree from Chulalongkorn University, and completed both diagnostic radiology residency and breast imaging fellowship at King Chulalongkorn Memorial Hospital where she pursued her academic and clinical works in breast imaging. She was a former visiting research fellow in breast imaging at Brigham and Women’s Hospital with various research collaborations particularly in multiparametric breast MRI, imaging biomarkers, and application of deep learning to improve diagnostic accuracy of breast MRI. Her interest also includes contrast-enhanced mammography as supplemental screening and diagnostic techniques in women with dense breasts, which are predominant among Thai women.

The Electronic Abstract Award is presented to the two most outstanding electronic abstracts submitted to the Symposium.

Join us in congratulating our 2024 Electronic Abstract Award winners Kaitlin Zaki-Metias, MD and Kristina Michaudet, MD!

Kaitlin Zaki-Metias, MD

- Diagnostic Radiology Resident, Trinity Health Oakland Hospital/Wayne State University School of Medicine

Abstract Title: “Association Between Breast Arterial Calcifications and Increased Cardiovascular Risk: Clinical Implications and Role in Preventative Care”

Kaitlin Zaki-Metias is currently a PGY-5 diagnostic radiology resident and chief resident at Trinity Health Oakland Hospital/Wayne State University School of Medicine in Pontiac, Michigan. She will be joining the Breast and Abdominal Imaging fellowship program at Western University Schulich School of Medicine and Dentistry in London, Ontario, Canada for the 2024-2025 academic year. Dr. Zaki-Metias takes an active role in volunteering and leadership, currently serving a Trainee Representative on the Canadian Society of Breast Imaging (CSBI) Board of Directors and as International Resident Representative on the Canadian Association of Radiologists (CAR) Resident & Fellow Section Executive Committee. In addition to volunteering on several CAR working groups, she also currently serves on the RadioGraphics Trainee Editorial Advisory Board and Applied Radiology Editorial Board. Her academic interests include guideline development, quality improvement and harnessing opportunistic imaging findings for optimization of patient screening and preventative care. Her work has resulted in award recognition from the CSBI, CAR, RSNA, and American Association for Women in Radiology. Dr. Zaki-Metias has special interests in health systems and policy, undergraduate medical education, and mentorship, and aims to remain engaged in the breast imaging and radiology mentorship community throughout her career.

Kristina Michaudet, MD

- Stanford University

Abstract Title: “Sentinel Lymph Node Superparamagnetic Iron Oxide (SPIO) and Its Impact on Subsequent Breast Cancer Detection”

Dr. Kristina Michaudet is originally from Florida. She is a triple gator, having obtained a Bachelor of Arts in French, an Accelerated Bachelor of Science in Nursing, and a Doctor of Medicine from the University of Florida. She also studied and worked in France for over five years. She moved to the Bay Area with her husband and two dogs in 2019 to join the Stanford Diagnostic Radiology Residency. Given the incredible Stanford community, she decided to stay for Breast Imaging Fellowship. Dr. Michaudet chose Breast Imaging for its collegiality across medical specialties and because she genuinely enjoys speaking with patients and getting them involved in their care. She is also enthusiastic about mentorship and teaching and will continue at Stanford as faculty in August 2024.

RESEARCH EDUCATION FUND

Mentor Legacy Program

The Mentor Legacy Program is a tribute to the profound influence of mentors in shaping individuals' professional journeys. It serves as a platform for recognizing and immortalizing the invaluable contributions of mentors who have significantly impacted the lives and careers of others.

This program operates as a philanthropic initiative aimed at celebrating mentorship excellence across breast imaging. It invites beneficiaries to honor their mentors, their "Unsung Hero", by contributing to a dedicated fund in their name. Donations can be made by individuals or organizations seeking to pay homage to the mentors who have played pivotal roles in their professional development.

For a small donation, minimum \$25, you can honor your mentor by placing their name on this recognition board.

Donations collected at the SBI Breast Imaging Symposium will be specifically earmarked to create an education scholarship program with a primary focus on workforce development. Each scholarship recipient will receive an award which will be designated for travel, housing or additional cost related to attending SBI in-person events.

To honor a mentor that has impacted your career, please donate here:

Please show your confirmation email to the staff at the SBI Information Desk for your "card and pin" to hang on the Mentor Legacy wall.

PRESIDENT'S DINNER

The evening begins with specialty crafted cocktails at the St-James Theatre. Then, dine on a delectable meal as we honor this year's SBI Gold Medalist and other distinguished award recipients. Close out the evening with live music and dancing.

Your support of the SBI President's Dinner will help to fund future initiatives of the SBI Research and Education Fund. Secure your tickets now for the premier event of the SBI Symposium, all for a great cause!

2024 SBI SYMPOSIUM ROUNDTABLES
