Message from Planning Committee Chair

Dear Colleagues:
The ASAM 2022 State of the Art Course in Addiction Medicine delivers an exciting overview and insight into the scientific advances and emerging evidence in addiction medicine. This year's program includes the most pressing issues identified by the nation's top scientists and leading clinicians working to improve outcomes for patients with substance use disorders.

The course is divided into eleven sessions, each filled with presentations that dive deep into the most critical clinical issues. Experts will deliver these presentations in a condensed and informative format, encompassing relevant clinical information and recent scientific advances. Some sessions will include time for audience discussion immediately following each presentation while other sessions will have a presenter panel at the end of the session.

Throughout the next three days, you will have the opportunity to learn from and network with addiction leaders and researchers. On behalf of the Program Planning Committee, thank you for joining us as we explore *Scientific Advances and Emerging Research in Addiction Medicine*.

Sincerely,

Michael I. Fingerhood, MD, FACP, DFASAM, *Chair*

Program Planning Committee

Michael I. Fingerhood, MD, FACP, DFASAM, *Chair*

Neeraj Gandotra MD, SAMHSA Representative

Udi Ghitza, PhD, NIDA Representative

Raye Z. Litten, PhD, NIAAA Representative

Kathleen R. Page, MD

Richard K. Ries, MD, FAPA, DFASAM

Deidra Roach, MD, NIAAA Representative

Billina R. Shaw, MD

Frank J. Vocci, PhD, *Immediate Past Chair*

Learning Objectives

Upon completion, participants should be able to:

- Discuss the important, new, scientific breakthroughs in the prevention, diagnosis, and treatment of addiction.
- Critically evaluate new science and describe how it changes the current understanding of addiction and co-occurring medical or psychiatric disorders.
- Develop practical applications for integrating new and emerging science into practice.
- Identify gaps in the field of addiction medicine which future research can address.
- Create a network of colleagues and resources to support the learner's practice or form future research collaborations.

Download the ASAM Events App

The ASAM Events App is your go-to guide for all ASAM conferences and courses.

Step 1: Download the ASAM Events App

- Go to the Apple App Store or Google Play and search for "ASAM Events."
- Download the ASAM Events App and click "Open."

Step 2: Open ASAM State of the Art 2022

- Once inside the ASAM Events App, click on "ASAM State of the Art 2022."
- When prompted, create a new account to access this event.

App Features:

- View slides & presenter bios
- Take notes during presentations
- Star your favorite, must-see sessions
- Stay up to date on course info

Tips:

- Everyone will need to create a new account the first time they open the State of the Art 2022 event within the app. The new account does not need to have the same email address as was used during registration.
- If you want to log in to your account on multiple devices, use the Access Key that was emailed to you after you created your account.
- To sync with updated conference info, locate the menu in the top right corner. Click "Refresh Schedule" in the "Your Event" section of the menu.

Log-in for free WiFi!

Schedule

The full course schedule (including speaker information, presentation slides, and more) is available on the conference website and in the ASAM Events app.

PRE-COURSE OFFERINGS WEDNESDAY, SEPTEMBER 28, 2022

9:00 am - 6:00 pm	ASAM Registration Open	Potomac Foyer, Ballroom Level
10:00 am - 5:00 pm	ASAM/NADCP Integrating Addiction Medicine with Treatment Courts	Potomac 3, Ballroom Level
2:30 pm - 4:45 pm	Tobacco Cessation During Addiction Treatment	Potomac 1-2, Ballroom Level
8:30 pm - 9:30 pm	Mutual Help (Open Meeting)	Meeting Room 16, Meeting Room Level

STATE OF THE ART COURSE IN ADDICTION MEDICINE THURSDAY, SEPTEMBER 29, 2022

7:30 am - 5:30 pm	ASAM Registration Open		Potomac Foyer, Ballroom Level
7:30 am - 6:30 pm	Tabletop Exhibits Open		Anacostia, Ballroom Level
7:30 am - 8:30 am	Continental Breakfast		Anacostia, Ballroom Level
8:30 am - 8:45 am	Welcome & Day 1 Opening Remarks <i>Michael I. Fingerhood, MD, FACP, DFASAM</i>		Potomac, Ballroom Level
8:45 am - 10:30 am	Session 1: COVID-19: Current and Future Impacts <i>Organized by Deidra Roach, MD & Kathleen Page, MD</i> The COVID-19 era has given rise to a series of major life stressors, including illness and death caused by a global pandemic, stay-at-home orders, disruptions in employment and income, food and supply shortages, as well as housing instability. As a result of these factors, epidemiological evidence suggests that the pandemic has increased alcohol use, opioid use, and the prevalence of certain psychological disorders. Furthermore, minoritized persons with substance use disorders are a particularly vulnerable population because of their unique social and health care needs, which place them at risk for significant harm from both the pandemic itself and its social and economic consequences. This session will explore the impacts of the COVID-19 pandemic as well as potential solutions. Following each presentation, presenters will answer audience questions.		Potomac, Ballroom Level
	8:45 am - 8:50 am	Session Introduction <i>Michael I. Fingerhood, MD, FACP, DFASAM</i>	
	8:50 am - 9:15 am	Emerging Trends in Alcohol Misuse and Related Harms During and After the Pandemic <i>Aaron White, PhD</i>	
	9:15 am - 9:40 am	Opioid Use Disorder Treatment without Red Tape? What We Learned During COVID-19 <i>Brendan Saloner, PhD</i>	
	9:40 am - 10:05 am	Racism, COVID-19, and Racial/Ethnic Behavioral Health Inequities <i>Anika A. H. Alvanzo, MD, MS, DFASAM, FACP</i>	
	10:05 am - 10:30 am	Symptoms of Psychological Distress Among U.S. Adults over the Course of the COVID-19 Pandemic <i>Beth McGinty, PhD, MS</i>	
10:30 am - 10:45 am	Refreshment Break		Anacostia, Ballroom Level
10:45 am - 12:30 pm	Session 2: Co-Occurring Psychiatric Disorders <i>Organized by Richard Ries, MD, FAPA, DFASAM & Neeraj Gandotra, MD</i> There is a high prevalence of psychiatric comorbidity among people with substance use disorders, with some studies showing as high as 80% having another mental health condition. This session will explore new research in preventing, screening, and treating psychiatric disorders among people with substance use disorders. Topics include suicide, methamphetamine psychosis, ADHD, depression, and anxiety. Following the session, a moderated panel discussion among the presenters will answer audience questions.		Potomac, Ballroom Level
	10:45 am - 10:50 am	Session Introduction <i>Michael I. Fingerhood, MD, FACP, DFASAM</i>	
	10:50 am - 11:10 am	Addiction, Overdose, Suicide & the Gray Areas in Between <i>Richard Ries, MD</i>	
	11:10 am - 11:30 am	Over-Amped: Managing Methamphetamine Use Disorder and Methamphetamine Psychosis <i>Scott Simpson, MD, MPH</i>	

THURSDAY, SEPTEMBER 29, 2022

10:45 am - 12:30 pm	11:30 am - 11:50 am	Treatment of ADHD and Substance Use Disorders <i>Meg Chaplin, MD</i>	Potomac Foyer, Ballroom Level
	11:50 am - 12:10 pm	Depression and Anxiety in Patients with Addiction <i>Richard Rosenthal, MA, MD</i>	
	12:10 pm - 12:30 pm	Session Panel <i>Moderated by Michael I. Fingerhood, MD, FACP, DFASAM</i>	
12:30 pm - 1:30 pm	Lunch Break		Anacostia, Ballroom Level
1:30 pm - 3:15 pm	Session 3: Co-Occurring Medical Disorders <i>Organized by Kathleen Page, MD & Michael I. Fingerhood, MD, FACP, DFASAM</i> Patients receiving addiction treatment frequently present with medical and psychological conditions that can greatly affect their overall well-being. This session will discuss research and treatment approaches for common co-occurring medical disorders, such as HCV, Drug Use-Associated Infective Endocarditis (DUA-IE), liver disease, and Skin and Soft Tissue Infections (SSTIs). Following each presentation, presenters will answer audience questions.		Potomac, Ballroom Level
	1:30 pm - 1:35 pm	Session Introduction <i>Michael I. Fingerhood, MD, FACP, DFASAM</i>	
	1:35 pm - 2:00 pm	One Size Does Not Fit All: HCV Care in Various Settings <i>Oluwaseun Falade-Nwulia, MBBS, MPH</i>	
	2:00 pm - 2:25 pm	Shifting the Treatment Paradigm for Endocarditis Among People Who Use Drugs: Treat the Person, Not Just the Infection <i>Joshua Barocas, MD</i>	
	2:25 pm - 2:50 pm	Removing "Alcoholic" from Alcohol-Related Liver Disease <i>Geetanjali Chander, MD, MPH</i>	
	2:50 pm - 3:15 pm	Meeting People Where They are: Integrating Wound Care with Addiction Services <i>Amanda Rosecrans, MD, MHS</i>	
3:15 pm - 3:45 pm	Refreshment Break		Anacostia, Ballroom Level
3:45 pm - 5:30 pm	Session 4: New Evidence for Non-Pharmacological Treatment <i>Organized by Richard Ries, MD, FAPA, DFASAM & Deidra Roach, MD</i> In addition to pharmacological treatment, addiction providers should have a robust toolbelt of non-pharmacological treatment approaches. Presentations in this session will examine research on Cognitive Behavioral Therapy for Insomnia (CBT.i), Alcoholics Anonymous (AA) and clinician-facilitated AA ("Twelve-Step Facilitation", TSF), the Common Elements Treatment Approach (CETA), and Contingency Management (CM). Presentations will provide essential information for clinicians working in non-specialty settings who have little knowledge of, or experience with these non-pharmacological approaches but who may wish to utilize proven strategies. Following the session, a moderated panel discussion among the presenters will answer audience questions.		Potomac, Ballroom Level
	3:45 pm - 3:50 pm	Session Introduction <i>Michael I. Fingerhood, MD, FACP, DFASAM</i>	
	3:50 pm - 4:10 pm	The Role of Sleep Treatment in Addiction Medicine <i>Mary Miller, PhD</i>	
	4:10 pm - 4:30 pm	Twelve Step Facilitation: An Update <i>Richard Ries, MD</i>	
	4:30 pm - 4:50 pm	The CETA System of Care: An Innovative Way to Improve Behavioral/Mental Health Care <i>Laura Murray, MA, PhD</i>	
	4:50 pm - 5:10 pm	Update on Contingency Management Research and Practice <i>Michael McDonell, PhD</i>	
5:30 pm - 6:30 pm	The State of the Art Social		Anacostia, Ballroom Level
8:00 pm - 9:00 pm	Mutual Help (Open Meeting)		Meeting Room 16, Meeting Room Level

FRIDAY, SEPTEMBER 30, 2022

7:30 am - 5:30 pm	ASAM Registration Open	Potomac Foyer, Ballroom Level
7:30 am - 4:00 pm	Tabletop Exhibits Open	Anacostia, Ballroom Level
7:30 am - 8:30 am	Continental Breakfast	Anacostia, Ballroom Level
8:30 am - 8:45 am	Day 2 Opening Remarks <i>Kathleen Page, MD</i>	Potomac, Ballroom Level

8:45 am - 10:30 am	Session 5: Addressing Treatment Disparities <i>Organized by Deidra Roach, MD & Frank Vocci, PhD</i> There is an urgent need to address health disparities related to addiction among certain marginalized populations. These disparities are a result of individual, interpersonal, organizational, community and policy factors that both increase a population's risk of addiction as well as cause barriers for them to access addiction treatment. The presentations in this session will outline addiction-related disparities and promising treatment approaches for four different populations, including rural and socioeconomically deprived, Latino, immigrant, and transgender populations. Following each presentation, presenters will answer audience questions.			Potomac, Ballroom Level
	8:45 am - 8:50 am	Session Introduction <i>Kathleen Page, MD</i>		
	8:50 am - 9:15 am	Urban/Rural/Racial Disparities in Access to Buprenorphine and Opioid Treatment Programs <i>Solmaz Amiri, PhD</i>		
	9:15 am - 9:40 am	Screening and Intervening on Structural Determinants of Health for Minoritized Individuals in Addiction Medicine <i>Christina Lee, PhD</i>		
	9:40 am - 10:05 am	¿Cómo se dice Affordable Care? Immigrant Health, Access to Care, and COVID-19 <i>Kathleen Page, MD</i>		
	10:05 am - 10:30 am	Health Disparities among Transgender Women <i>Cathy Reback, PhD</i>		
10:30 am - 10:45 am	Refreshment Break			Anacostia, Ballroom Level
10:45 am - 12:30 pm	Session 6: Stimulants and Synthetic Drugs <i>Organized by Udi Ghitza, PhD & Frank Vocci, PhD</i> According to the CDC, from 2012 through 2020 in the United States, the number of deaths involving methamphetamine increased more than 6-fold while the number of deaths involving cocaine more than tripled. These numbers have continued to rise since the beginning of the COVID-19 pandemic. Presentations will highlight the latest research and emerging topics on stimulants and synthetic drugs, including the stimulant and fentanyl overdose mortality epidemic, synthetic stimulants and opioids, psychophysiological phenotyping of reward processing, and promising treatment approaches for Methamphetamine Use Disorder. Following each presentation, presenters will answer audience questions.			Potomac, Ballroom Level
	10:45 am - 10:50 am	Session Introduction <i>Kathleen Page, MD</i>		
	10:50 am - 11:15 am	Colluding Crises: Understanding Stimulant and Fentanyl Overdose Mortality <i>Phillip Coffin, MD, MIA, FACP, FIDSA</i>		
	11:15 am - 11:40 am	Psychophysiological Phenotyping of Reward Processing and its Modulation with Abstinence in Cocaine Addiction <i>Muhammad Parvaz, PhD</i>		
	11:40 am - 12:05 pm	Pharmacology of New Synthetic Stimulants and Opioids Appearing in Clandestine Drug Markets <i>Michael Baumann, PhD</i>		
	12:05 pm - 12:30 pm	Treatment of Methamphetamine Use Disorder Using Injectable Naltrexone and Oral Bupropion <i>Madhukar Trivedi, MD</i>		
12:30 pm - 1:30 pm	Lunch Break			Anacostia, Ballroom Level
1:30 pm - 2:30 pm	Session 7: Federal Agency Session: Special Addresses and Open Discussion <i>Organized by Michael I. Fingerhood, MD, FACP, DFASAM</i> Agency leaders will each give a 10-minute overview from their respective organizations about emerging issues and advances in addiction medicine. Following the presentations, State of the Art Planning Committee Chair, Dr. Michael I. Fingerhood will lead the agencies in a discussion.			Potomac, Ballroom Level
	 Miriam Delphin-Rittmon, PhD <i>Assistant Secretary for Mental Health and Substance Use Substance Abuse and Mental Health Services Administration (SAMHSA)</i>	 Wilson M. Compton, MD, MPE <i>Deputy Director National Institute on Drug Abuse (NIDA)</i>	 Aaron White, PhD <i>Leader, Epidemiology and Biometry Branch. Senior Scientific Advisor to the NIAAA Director. National Institute on Alcohol Abuse and Alcoholism (NIAAA)</i>	
2:30 pm - 3:30 pm	Session 8: New in Neurobiology <i>Organized by Deidra Roach, MD</i> Although addiction is widely understood to be a chronic brain disorder, the neurological basis and consequences of addiction remain poorly understood. The presentations in this session will identify new ways to treat, cure, and prevent addiction using advanced neuro-technologies. Following each presentation, presenters will answer audience questions.			Potomac, Ballroom Level
	2:30 pm - 2:35 pm	Session Introduction <i>Kathleen Page, MD</i>		
	2:35 pm - 2:55 pm	Updates on the BRAIN Initiative <i>John Ngai, PhD</i>		
	2:55 pm - 3:15 pm	Brain Mechanisms of Relapse Prevention Medications for Opioid Use Disorder <i>Zhenhao Shi, PhD</i>		
	3:15 pm - 3:30 pm	Session Panel <i>Moderated by Kathleen Page, MD</i>		
3:30 pm - 3:45 pm	Refreshment Break			Anacostia, Ballroom Level

FRIDAY, SEPTEMBER 30, 2022

3:45 pm - 5:30 pm	Session 9: Alcohol Use Disorder: Pharmacotherapy and Recovery <i>Organized by Raye Litten, PhD & Michael I. Fingerhood, MD, FACP, DFASAM</i> Alcohol Use Disorder (AUD) is a heterogeneous disorder characterized by individual variation in clinical features, neurocognitive functioning, molecular pathways, and neural circuits making it challenging to treat. This session will examine new research on AUD treatment, including findings from a cutting-edge alcohol registry, evidence outlining the role of the endocrine system in addiction, and advances in the use of computational modeling and biomarkers to advance personalized medicine for AUD. Following the session, a moderated panel discussion among the presenters will answer audience questions.		Potomac, Ballroom Level
	3:45 pm - 3:50 pm	Session Introduction <i>Kathleen Page, MD</i>	
	3:50 pm - 4:10 pm	Facilitating Recovery in the Context of Healthcare: Challenges and Opportunities <i>Stacy Sterling, DrPH, MSW, MPH</i>	
	4:10 pm - 4:30 pm	Gut-Brain Axis and Neuroendocrinology: Translation to Addiction Medicine <i>Lorenzo Leggio, MD, PhD</i>	
	4:30 pm - 4:50 pm	Beyond Treating Acute Alcohol Withdrawal: New Medications to Address Post-Withdrawal Relapse and Recovery <i>Rajita Sinha, PhD</i>	
	4:50 pm - 5:10 pm	Leveraging Systems Pharmacology to Advance Precision Medicine for Treatment of Alcohol Use Disorder <i>Charles Marmar, MD</i>	
	5:10 pm - 5:30 pm	Session Panel <i>Moderated by Kathleen Page, MD</i>	
8:00 pm - 9:00 pm	Mutual Help Peer (Open Meeting)		Meeting Room 16, Meeting Room Level

SATURDAY, OCTOBER 1, 2022

7:30 am - 12:00 pm	ASAM Registration Open		Potomac Foyer, Ballroom Level
7:30 am - 10:30 am	Tabletop Exhibits Open		Anacostia, Ballroom Level
7:30 am - 8:30 am	Continental Breakfast		Anacostia, Ballroom Level
8:30 am - 8:45 am	Day 3 Opening Remarks <i>Frank J. Vocci, PhD</i>		Potomac, Ballroom Level
8:45 am - 10:45 am	Session 10: Cannabis & Synthetic Cannabinoids <i>Organized by Billina Shaw, MD & Neeraj Gandotra, MD</i> Cannabis is the most used federally illegal drug in the United States. Over the last several years there has been a steady increase in research on cannabis, and this session will outline some of the interesting findings and topics that have emerged. Topics will include adolescent cannabis use, oral cannabinoid products, treatment of pain with cannabis, and psychiatric outcomes for patients with Cannabis Use Disorder (CUD). Following each presentation, presenters will answer audience questions.		Potomac, Ballroom Level
	8:45 am - 8:50 am	Session Introduction <i>Frank J. Vocci, PhD</i>	
	8:50 am - 9:15 am	A Different Perspective on Adolescent Cannabis Use <i>Renee Johnson, PhD, MPH</i>	
	9:15 am - 9:40 am	Using Human Laboratory Methods to Understand the Pharmacokinetics and Pharmacodynamics of Oral Cannabinoid Products <i>Tory Spindle, PhD</i>	
	9:40 am - 10:05 am	Cannabis and the Pain Dilemma <i>Tauheed Zaman, MD</i>	
	10:05 am - 10:30 am	Psychiatric Outcomes in Individuals with Cannabis Use Disorder <i>Larissa Mooney, MD</i>	
10:30 am - 10:45 am	Refreshment Break		Anacostia, Ballroom Level
10:45 am - 12:00 pm	Session 11: Adolescents and Young Adults <i>Organized by Michael I. Fingerhood, MD, FACP, DFASAM & Deidra Roach, MD</i> Youth drug abuse is a public health concern, with at least 1-in-8 teenagers abusing an illicit substance in the last year. These sessions will explore distinct topics related to adolescent substance use and addiction, including adolescent e-cigarette addiction and clinically relevant substance-related findings from the Adolescent Brain Cognitive Development (ABCD) Study. Following each presentation, presenters will answer audience questions.		Potomac, Ballroom Level
	10:45 am - 10:50 am	Session Introduction <i>Frank J. Vocci, PhD</i>	
	10:50 am - 11:15 am	Youth E-cigarette Usage Pandemic: How to Manage E-Cigarette Addiction <i>Panagis Galiatsatos, MD, MHS</i>	
	11:15 am - 11:40 am	ABCD Study <i>Lindsay Squeglia, PhD</i>	
	11:40 am - 12:00 pm	Final Wrap-Up <i>Michael I. Fingerhood, MD, FACP, DFASAM</i>	
12:00 pm	Official Close of the ASAM State of the Course		

In-Person Pre-Course Offerings

September 28, 2022 | Separate Registration Required

ASAM/NADCP

INTEGRATING ADDICTION MEDICINE

with Treatment Courts

10:00 am – 5:00 pm | Potomac 3, Ballroom Level

Course Description

This course, hosted in partnership with National Association of Drug Court Professionals (NADCP), provides six hours of education needed for prescribing clinicians to strengthen skills in partnering with drug court and advocating for patients who are involved in drug court.

Learning Objectives

1. Describe ways to reduce stigma against people with substance use disorders, including the use of accurate terminology.
2. Explain the role of timely and accurate diagnosis and treatment for clients/participants first engaging in treatment courts.
3. Define addiction as a chronic and manageable disease.
4. Describe the purpose, structure, and effectiveness of treatment courts.
5. Define the roles and responsibilities of treatment court team members.
6. Describe the roles and responsibilities of medical providers within treatment court settings.
7. Apply best clinical and partnership practices to case examples of patients who are engaged in treatment court and addiction treatment.
8. Advocate effectively for access to evidence-based treatment with treatment court team members.
9. Coordinate care within professional settings to individuals involved in treatment courts.

Faculty: Debra Newman, PA-C, MPAS, MPH, Elizabeth Salisbury-Afshar, MD, MPH, FAAFP, FACPM, DFASAM, Terrence Walton, Meghan Wheeler, MS, Tauheed Zaman, MD

TOBACCO CESSATION

During Addiction Treatment

2:30 pm – 4:45 pm | Potomac 1 & 2, Ballroom Level

Course Description

This highly interactive workshop will focus on the importance of integrating tobacco cessation treatment either simultaneously or sequentially during addiction treatment. Learners will explore how to provide effective nicotine withdrawal management when patients are admitted to withdrawal management and intensive inpatient centers. The skills include assessing levels of dependence, matching evidence based pharmacological and behavioral support to help patients achieve lasting remission without compromising their recovery journey and possibly enhancing recovery. Special focus on the integration in ambulatory OAT programs will be explored.

Learning Objectives

1. Select the optimal first line treatment plan for addressing tobacco withdrawal and cessation in those with concurrent tobacco use disorder and other substance use disorders
2. Apply a biopsychosocial plan to non-responders to treatment
3. Apply a diversity, equity, and inclusion (DEI) lens to different case vignettes scenarios around concurrent tobacco use disorder and non-responders to treatment

Faculty: Peter Selby, MD, MBBS, CCFP, FCFP, MHSc, DFASAM, Esa Davis, MD, MPH, FAAFP

ASAMeLearning

eLearning Center & Claiming Credit

eLearning.ASAM.org

CLAIMING CREDIT: Claim credit anytime between October 3, 2022 and October 3, 2023

Full State of the Art and Pre-Conference Course Registrants:

1. Type <https://eLearning.ASAM.org> into your web browser.
2. Login to the eLearning Center (eLC), using your ASAM.org username and password (what you used when registering for the conference/preconference course).
3. After logging in, select "My Dashboard" from the list of tabs above your name (on mobile devices, you will find "Dashboard" by clicking the three horizontal lines in the header).
4. Locate your Conference or Pre-Conference Course. "ASAM State of the Art Course in Addiction Medicine 2022" will be under "Packages" and the Pre-Conference Courses will be under "On-Demand Products".

WATCHING SESSIONS ON-DEMAND:

Relive the State of the Art Course or catch sessions you missed! On-demand sessions will be available from November 1, 2022 - November 1, 2025. Others not registered for the ASAM State of the Art Course may purchase sessions on-demand in the ASAM eLearning Center when they become available.

The ASAM Motivational Interviewing Workshop and ASAM/NADCP Integrating Addiction Medicine with Drug Treatment Courts Workshop will be available on-demand for course attendees only. The ASAM Pain & Addiction: Applied Skills Workshop and the Tobacco Cessation During Addiction Treatment Course will NOT be recorded or available for online purchase.

5. Click "Content." State of the Art Conference Attendees will also have to the "Evaluation & Certificate - Live Attendee of ASAM State of the Art Course" and click "View."
6. Find the box that says "Complete Evaluation" and click the button that says, "Fill out Survey."
7. After you have completed the evaluation, select the box labeled "Claim Credit & Certificate" and click the button that says, "Claim Medical Credits."
8. Select your provider type and the number of hours you attended, then click "Submit."
9. Print out your certificate or save it to your device.

ACCME Accreditation Statement

The American Society of Addiction Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

AMA Credit Designation Statement - ASAM State of the Art Course

The American Society of Addiction Medicine designates this live activity for a maximum of **18 AMA PRA Category 1 Credit(s)™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

AMA Credit Designation Statement-Integrating Addiction Medicine with Treatment Courts

The American Society of Addiction Medicine designates this live activity for a maximum of **6 AMA PRA Category 1 Credit(s)™**. Physicians should only claim credit commensurate with the extent of their participation in the activity.

AMA Credit Designation Statement-Tobacco Cessation During Addiction Treatment

The American Society of Addiction Medicine designates this live activity for a maximum of **2 AMA PRA Category 1 Credit(s)™**. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Maintenance of Certification (MOC)/Continuing Certification Programs

Claim CME & MOC Points for your primary board and addiction medicine at the same time.

- American Board of Medical Specialties (ABMS)
- American Osteopathic Association Category 2 credits (AOA)
- American Board of Preventive Medicine (ABPM)
- American Board of Anesthesiology (ABA)
- American Board of Internal Medicine (ABIM)
- American Board of Family Medicine (ABFM)
- American Board of Pediatrics (ABP)
- American Board of Psychiatry and Neurology (ABPN)
- American Board of Surgery (ABS)
- American Board of Addiction Medicine (ABAM)
- Royal College of Physicians and Surgeons of Canada (RCPSC)

NAADAC, the Association for Addiction Professionals

This activity has been approved by the American Society of Addiction Medicine, as a NAADAC Approved Education Provider, for educational credits. NAADAC Provider #295, ASAM is responsible for all aspects of the programming.

Continuing Education Credits (CEUs)

Non-physician participants will receive a certificate of attendance upon completion of the activity and an on-line evaluation confirming their participation. Participants should submit his/her certificate of attendance to their professional organization/institute.
